

To see a listing of providers please click [here](#) to access the Medicaid Information Technology (MITS) portal.

Helpful suggestions when searching for a home and community-based services provider on this site:

- It is helpful to limit your search to no closer than your county because the search engine is driven by the location of the provider's office, not your location.
- Under the "Provider Type" look for Medicare-Certified Home Health Agencies, Other Accredited Home Health Agencies, Private Duty Nurse, or Waiver Services organization.
- Under Provider Specialty, choose ODJFS Waiver to narrow the search to providers who work with the Ohio Home Care Waiver
