*For the beginning of the FFY 2017, Ohio will pay a single rate for Routine Home Care, T2042. The single rate to be paid is Routine Home Care, per day, Days 1-60 for individuals eligible for Medicaid Hospice. Providers can expect that claims for an individual receiving Medicaid Routine Home Care beyond the 61st day will be retrospectively adjusted for overpayments by the end of FFY 2017, to align with rates for Routine Home Care, per day, Day 61+, T2042. The application of the correct rates will be ready in MITS once the necessary adjustments to the system are in place, including for incoming Service Intensity Add-On (SIA) claims. Provided certain conditions are met when provided during routine home care, the retroactive reimbursement for SIA will occur for visits made by a registered nurse (G0299) or by a social worker (G0155) during the last 7 days of a hospice individual’s life. The SIA payment is equal to the hourly rate for Continuous Home Care, multiplied by the hours of nursing or social work provided (up to 4 hours total) that occurred on the day of service.

</table>
For the beginning of the FFY 2017, Ohio will pay a single rate for Routine Home Care, T2042. The single rate to be paid is Routine Home Care, per day, Days 1-60 for individuals eligible for Medicaid Hospice. Providers can expect that claims for an individual receiving Medicaid Routine Home Care beyond the 61st day will be retrospectively adjusted for overpayments by the end of FFY 2017, to align with rates for Routine Home Care, per day, Day 61+, T2042. The application of the correct rates will be ready in MITS once the necessary adjustments to the system are in place, including for incoming Service Intensity Add-On (SIA) claims. Provided certain conditions are met when provided during routine home care, the retroactive reimbursement for SIA will occur for visits made by a registered nurse (G0299) or by a social worker (G0155) during the last 7 days of a hospice individual’s life. The SIA payment is equal to the hourly rate for Continuous Home Care, multiplied by the hours of nursing or social work provided (up to 4 hours total) that occurred on the day of service.
