

Managed Long-Term Services and Supports Stakeholder Meeting

Ohio Medicaid will implement a new Managed Medicaid Long-Term Services and Supports (MLTSS) program and begin enrolling individuals receiving community- and facility-based long-term services and supports in managed care on July 1, 2018. This move will allow Ohio Medicaid to provide the benefits of care coordination to Medicaid enrollees who have the most complex needs and improve quality of care to achieve better health outcomes.

Stakeholder engagement will be an important part of the process as key decisions are made regarding the MLTSS program. Please join Ohio Medicaid Director Barbara Sears and senior staff, along with Ohio Department of Aging staff, as they present information about the new program and the work ahead:
