

ACR change in Leave Days column

The Hospital and Therapeutic leave days column in Schedule A-1 of the ACR has been changed to report all leave days at 50% in accordance with ORC 5165.01(W)(2) which states in part, inpatient days are defined as 50% for leave days.

While the cost report includes Hospital and Therapeutic leave days at 50%, reimbursement of leave days is still subject to ORC 5165.34(C) which provides that authorized leave days will be reimbursed based upon Facility's high occupancy percentage.
