

Section S: State of Ohio Supplement

The item in this section must be completed for all MDS 3.0 records submitted in the State of Ohio if the resident does not have a Social Security Number. If a Social Security Number is recorded in Section A0600A, do not complete this item.

- » This would apply for any record completed for a resident who does not have a Social Security Number, including comprehensive assessments, PPS assessments, and discharge assessments or tracking forms.

S0150. Resident Identifier Code

- » **Intent:** To record an alternate resident identifier code when a resident does not have a Social Security Number (SSN).
- » **Definition: a nine digit alphanumeric code** that is constructed for a resident who does not have a SSN.
- » **Process:** Use this method to construct the Resident Identifier Code.
 - **In the first three boxes:** Enter the first three letters of the resident's last name.
 - **In the next six boxes:** Enter the six digits of the resident's date of birth. Omit the century in the birth date.
 - *Example:* If a resident named Mary Brown with a birth date of May 6, 1908 does not have a SSN, her identifier code would be BRO050608.
 - **If the resident's last name consists of only two letters:** Enter the letters in the first two boxes, and enter a dash in the third box. Follow the dash with the six digits for the resident's date of birth.
- » **Coding:** Record the constructed Resident Identifier Code in the boxes provided. *Use all boxes.*
