Request to Schedule Demonstration

Electronic Visit Verification (EVV)
Alternate System Certification

Each alternate EVV system vendor must successfully complete a demonstration of core system functionality as defined by the Demonstration Checklist found on the ODM EVV webpage. If the alternate system (with the same functionality) has not successfully been demonstrated previously, the demonstration is required before the alternate system will be certified. If the alternate system (with the same functionality) has been successfully demonstrated previously, the provider and vendor should complete the certification in Part 2 of this document in lieu of requesting a demonstration.

Note: Part 2 of the Request to Schedule Demonstration should be completed by the provider and vendor for any alternate system that has successfully completed a demonstration previously. Failure to either successfully complete a demonstration or submit this form with Part 2 completed, will result in a failure to complete the alternate EVV system certification process.
