

Release Date: 5/24/2012

Update to Professional Crossover Claims with Medicare eRX Incentive Program Penalties (ARC 237 with Remark N545)

Professional Medicare crossover claims that denied for EOB 0988 HEADER MEDICARE ALLOWED AMOUNT IS NOT EQUAL TO THE SUM OF THE DETAIL MEDICARE ALLOWED AMOUNTS due to the Medicare Electronic Prescribing (eRx) Incentive Program are processing successfully as of 05/16/2012.

Check your 5/23/2012 ODJFS Medicaid Remittance Advice for automatic crossovers successfully paying if **billed/received by ODJFS on or after 5/16/2012**. Please look at the ODJFS ICN Julian Date to determine if the claim was received before, on, or after 5/16/2012. Julian Date for 5/16/2012 is 12137; the 137th day of year 2012. For example, a claim that automatically crossed from Medicare that was received by ODJFS on 5/16/2012 would have an ICN beginning with following numbers: 20**12137**.....

Do not initiate Medicare crossover claims unless you have **not** received payment from Medicaid at least three weeks after Medicare paid the claim primary. Professional crossover claims that have denied and are **NOT PAID** for this reason may be resubmitted.
