

Medicaid quality metrics and spend thresholds for performance period 4, CY2019 – Perinatal

Quality metrics thresholds ^{1,2}		Spend thresholds ³			
Quality metric	Threshold	Acceptable	Commendable	Positive incentive limit	
QM1: HIV screening rate	≥ 61%	Value, \$	\$4,731	\$3,364	\$963
QM2: C-section rate	≤ 34%	'All Medicaid' percentile	90 th percentile	9 th percentile	N/A
QM3: Post-partum follow-up visit rate	≥ 66%				

1 As per the State's goal to ramp up quality metric thresholds over time, the quality metric thresholds for performance year 2019 are changed from those used for performance year 2018

2 Group B Strep (GBS) screening rate was converted to an information-only quality metric and is no longer linked to payment as screening is most clinically appropriate for 36+ week deliveries

2 Spend thresholds for performance year 2019 are set based on CY2017 Ohio Medicaid claims data and adjusted for medical cost inflation

Medicaid quality metrics and spend thresholds for performance period 3, CY2018 – Perinatal

Quality metrics thresholds ^{1,2}		Spend thresholds ³			
Quality metric	Threshold	Acceptable	Commendable	Positive incentive limit	
QM1: HIV screening rate	≥ 61%	Value, \$	\$4,473	\$3,210	\$1,284
QM2: C-section rate	≤ 38%	'All Medicaid' percentile	90 th percentile	11 th percentile	N/A
QM3: Post-partum follow-up visit rate	≥ 66%				

1 As per the State's goal to ramp up quality metric thresholds over time, the quality metric thresholds for performance year 2018 are changed from those used for performance year 2017

2 Group B Strep (GBS) screening rate was converted to an information-only quality metric and is no longer linked to payment as screening is most clinically appropriate for 36+ week deliveries

3 Spend thresholds set based on CY2014 Ohio Medicaid claims data. The thresholds were adjusted for inflation for application in CY2016, and then held constant at the CY2016 level for CY2017 and CY2018

Medicaid quality metrics and spend thresholds for performance period 2, CY2017 – Perinatal

Quality metrics thresholds ¹		Spend thresholds ²			
Quality metric	Threshold	Acceptable	Commendable	Positive incentive limit	
QM1: HIV screening rate	≥ 51%	Value, \$	\$4,473	\$3,210	\$1,284
QM2: GBS screening rate	≥ 58%	'All Medicaid' percentile	90 th percentile	11 th percentile	N/A
QM3: C-section rate	≤ 41%				
QM4: Post-partum follow-up visit rate	≥ 55%				

1 As per the State's goal to ramp up quality metric thresholds over time, the quality metric thresholds for performance year 2017 are changed from those used for performance year 2016

2 Spend thresholds set based on CY2014 Ohio Medicaid claims data. The thresholds were adjusted for inflation for application in CY2016, and then held constant at the CY2016 level for CY2017 and CY2018

Medicaid quality metrics and spend thresholds after inflationary adjustments for performance period 1, CY2016 – Perinatal

Quality metrics thresholds		Spend thresholds ¹			
Quality metric	Threshold	Acceptable	Commendable	Positive incentive limit	
QM1: HIV screening rate	≥ 50%	Value, \$	\$4,473	\$3,210	\$1,284
QM2: GBS screening rate	≥ 50%	'All Medicaid' percentile	90 th percentile	11 th percentile	N/A
QM3: C-section rate	≤ 45%				
QM4: Post-partum follow-up visit rate	≥ 50%				

¹ Spend thresholds set based on CY2014 Ohio Medicaid claims data

All Medicaid PAP curve (used to set thresholds) – Perinatal

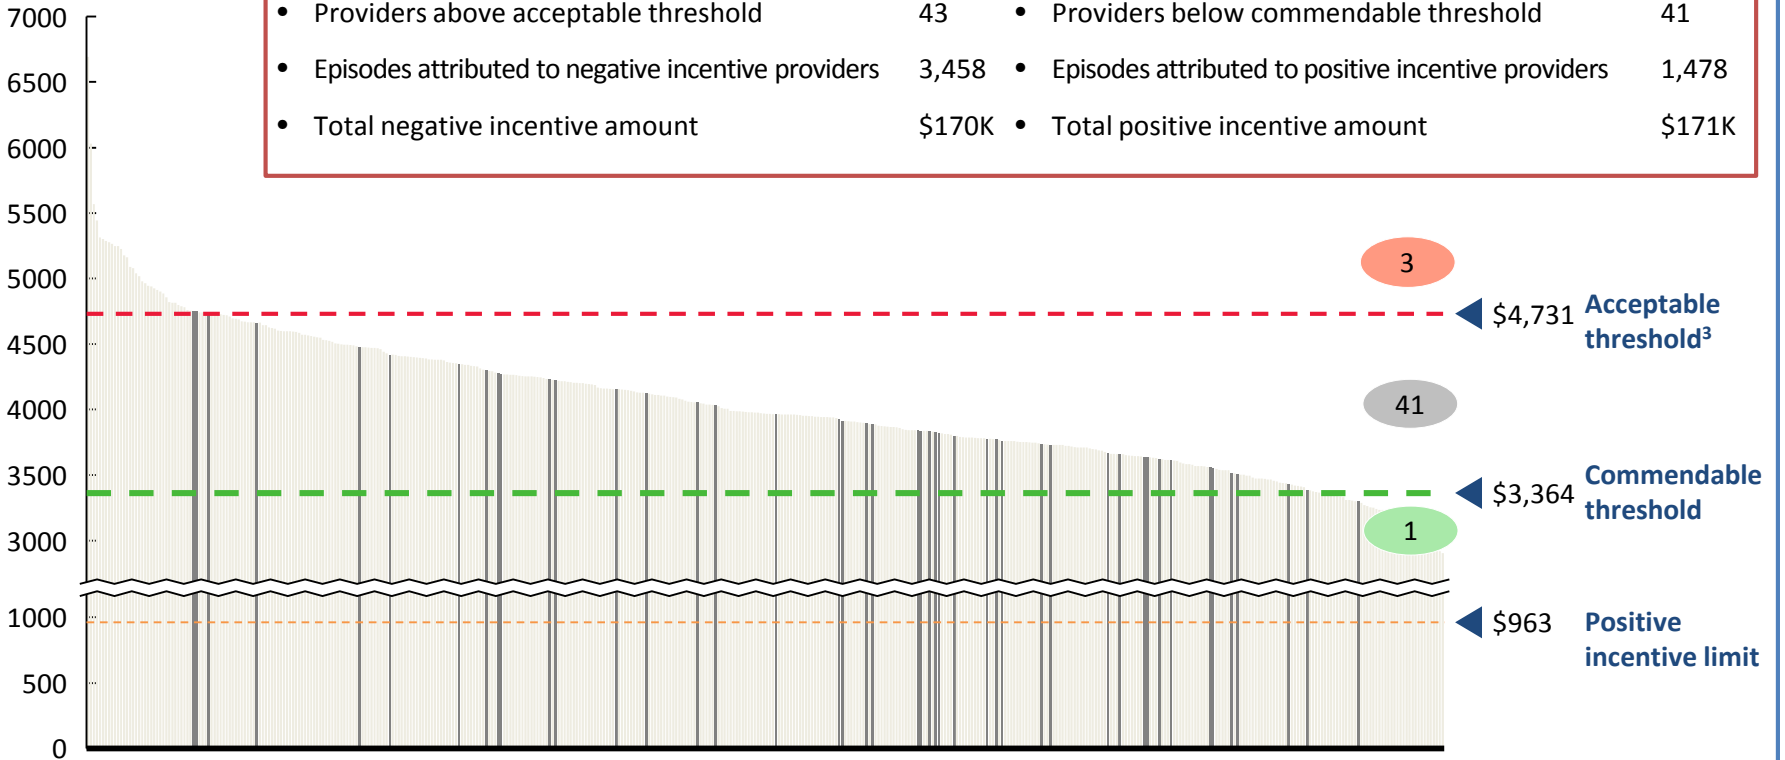

Provider risk-adjusted cost distribution

PAP average episode cost

X # of High-volume PAPs by incentive status Low volume High volume¹

Adj. avg cost/episode
\$

'All Medicaid' summary statistics			
Negative Incentive Payment		Positive incentive payments ²	
• Providers above acceptable threshold	43	• Providers below commendable threshold	41
• Episodes attributed to negative incentive providers	3,458	• Episodes attributed to positive incentive providers	1,478
• Total negative incentive amount	\$170K	• Total positive incentive amount	\$171K

1 Top 10% of providers by volume 2 Assumes all providers pass quality metrics tied to gain sharing

3 All thresholds and incentive limit have been adjusted for medical cost inflation
