

**CARES® Dementia Basics™ Grant  
Quarterly Progress Report  
To the Ohio Department of Medicaid  
Second Quarter 2018**

This is the second quarterly report by the Ohio Health Care Association (OHCA) to the Ohio Department of Medicaid (ODM) documenting progress on the CARES® Dementia Basics™ grant.

**Training/Certification Summary**

The primary goal of this grant was for the 150 SNFs enrolled through the grant for the CARES® Dementia Basics™ online training courses to have staff members participate in the training. After the initial in-person training sessions, representatives from both OHCA and CARES® Dementia Basics™ reached out via email and telephone to all enrolled facilities to encourage their utilization of the online training.

Unfortunately, although progress is occurring gradually, many of the enrolled centers still have not participated in the online training at all, and others have not met the goals for percentage of staff trained and certified.

The current status of online training is discussed below under the Data Analysis Summary.

**Financial Summary**

Item	Budget	Actual Expense
Course Fees	\$ 105,000.00	\$ 110,000.00
In-person Training	\$ 6,000.00	\$ 4,226.96
Speaker Fees and Travel	\$ 5,000.00	
Data Analysis	\$ 6,120.00	\$ 3,265.70
Enrollment & Monitoring	\$ 6,120.00	\$ 7,230.83
<b>Total</b>	<b>\$ 128,240.00</b>	<b>\$ 124,723.49</b>

The costs stated above are for the period ending June 30, 2018. The speaker fees and travel expenses are shown as being \$5,000 less than the budget and the course fees as being \$5,000 more than budget. This is because the training provider invoiced both as a single line item.

Costs for the in-person training were under budget by \$1,773.04 as the result of discounts that OHCA negotiated with the meeting location.

OHCA's actual expenses for this grant are \$3,516.31 under budget. The deliverables for these sections of the grant are complete, so OHCA has already returned the \$3,516.31 to ODM.

In addition to the budgeted costs listed above, participating skilled nursing centers provided in-kind contributions including time away from work, mileage for travel to the in-person program, costs of food while attending the program, and implementation costs within their facilities.

### **Data Analysis Summary**

Parameters for evaluating improvement:

1. *Up to 150 Ohio SNFs will have at minimum 25% of their staff complete the CARES® Dementia Basics™ Online Training Program.*
  - 98 participating SNFs (65.3%) had initiated online training of their staff as of the end of the second quarter of 2018, up from 84 centers (56%) in the previous quarter.
  - By the end of the second quarter, 3,438 staff members in participating facilities (21.3% of the estimated total<sup>1</sup>) completed the online training, compared to 2,427 at the end of the previous quarter.
  - Forty-two participating centers (28%) met the 25% threshold for completion of the online training through June 30, 2018, compared to 28 centers (18.7%) at the end of the previous quarter.
2. *Through the training of direct care staff and other staff in SNFs, patients will receive better care which will result in an improvement to the SNFs' resident satisfaction scores.*

As discussed in our first quarter 2018 report, we concluded that the satisfaction score measure is inadequate for purposes of this grant. The reasons for our conclusion are listed in the first quarter report.

Nonetheless, for the sake of responding to the measure in the grant, we included in the data tables, under the "Satisfaction Data" tab, comparative resident satisfaction data for the participating centers, along with the mean and median change for those facilities that met the 25% training goal as of the end of the second quarter of 2018. We continue to believe, however, that this measure should not be used to evaluate the effectiveness of the online dementia training.

Also as explained in the first quarter report, we offered the CMS long-stay antipsychotics quality measure as a better way to track the outcome of this grant. The reasons for this suggestion are provided in the first quarter report.

---

<sup>1</sup> Total staff for each center reported at beginning of project. For centers that did not report total staff, OHCA calculated FTEs using data from the 2016 cost report. Centers with estimated staff numbers are shown in red on the "CARES Data" tab in the data tables.

We proposed to use the second quarter of 2017 as the baseline quarter for evaluating antipsychotics data and to begin reporting data for the fourth quarter of 2017. Two quarters of reporting data now are available, Q4 2017 and Q1 2018. See the “AP-Participants” tab in the data tables, which includes the baseline quarter and the two reporting quarters.

We found that 19 (47.5%) of the 40 centers that had more than 25% of their staff trained improved (reduced) on the antipsychotics measure between the baseline quarter and the most recent reporting quarter, but the score for the measure among this group actually got worse (increased) by a median of 0.566 percentage points, compared to the median improvement (reduction) among all centers in Ohio of 1.662 percentage points.<sup>2</sup>

We will continue to monitor the antipsychotics measure as additional quarters of data become available.

3. *Of the participating SNFs, at least one staff member will earn the essentiALZ certificate.*
  - Sixty-six participating centers have at least one staff member who has earned the essentiALZ certificate, which is up from 52 last quarter.
  - Across all 150 participating centers, 1,452 individuals (9.00% of total staff) earned the essentiALZ certificate as of the end of first quarter 2018, up from 7.32% last quarter.

---

<sup>2</sup> For both the participating centers and the universe of all centers, any facility with insufficient data in either the baseline or the reporting quarter was excluded from the analysis.
