

**Wound Care Certification Grant
Quarterly Progress Report
To the Ohio Department of Medicaid
Second Quarter 2017**

Data Analysis Summary

The Ohio Health Care Association (OHCA) is pleased to share with the Ohio Department of Medicaid (ODM) that the data analysis monitoring continues. The training was completed in August 2016, and there is up to a six-month lag from the end of a quarter to the publication of the QM data for the quarter.

The data analysis will focus on whether the participating skilled nursing centers see improvement in the pressure ulcer quality measures after beginning to use a certified wound-care specialist.

- Centers will be included in the analysis only as long as they continue to employ the certified wound-care nurse. OHCA has designed a data table with the certified wound care specialist nurse and the facility they were trained through. OHCA will contact each of these facilities to ensure continued employment prior to inclusion in each quarters report.
- OHCA will utilize the last pre-training quarter (first quarter of 2016) as the baseline quarter.
- OHCA will use only the long-stay pressure ulcer measure for the analysis.
- OHCA separated the centers whose nurses attained certification into two groups: Group A, that was in the bottom 25% of centers that had data reported on Nursing Home Compare for the baseline quarter, and Group B, that were not in the bottom 25%.

Second quarter 2016 long stay pressure ulcer quality measure data is as follows:

After removing the facilities that no longer have the wound care certified nurse actively employed at the facility, the numbers have slightly increased for Group A and slightly decreased for Group B from last quarter to this quarter. Overall from the first quarter of 2016 there has been a decrease in Group A from 11.4% median to 6.55% median and Group B had a slight increase from a 3.61% median to a 4.2% median. We attached on the first tab of the excel document all of the Ohio nursing facilities with their second quarter 2016 long stay pressure ulcer data. The second tab contains the remaining facilities in Group A who currently employ the wound care certified nurse. Group A consists of 29 facilities. The third tab contains the remaining facilities in Group B who currently employ the wound care certified nurse. Group B consists of 46 facilities. As of the third quarter of 2016 data available, there are 75 facilities which remain in the data analysis. Group A went from a 6.25% median to a 6.55% median; Group B went from a 4.2% median to a 3.8% median, from last quarter to this quarter. OHCA will continue to monitor whether or not the nurses are employed at the facility as well as monitor the data available.
