April 20, 2020

Amy Hogan

Nursing Home Policy Manager

The Ohio Department of Medicaid Assistance

50 W Town St #400

Columbus, OH 43215

Dear Amy Hogan,

Grant ID: # G-1819-04-0401

The "Put Our Faith in Caring It's Never 2 Late" project continues to grow during the first quarter in numbers and usage diversification. We have continued to exceed 100 hours per month, per machine. We continue to educate staff on the full scope of applications and encourage families and volunteers, to use the IN2L program.

During this quarter the COVID-19 pandemic occurred at the end of March. This has made us become more creative with how we utilize the machines. When this pandemic occurred, we got in contact with Amy Hogan to make sure we were in compliance with the restrictions that went into place. After talking to Amy we put into place our infection control policy in regards to the IN2L. This policy insures all machines be locked up in a secure area. Normally our machines are in common areas for anyone to use. We still want to utilize our machines and be able to reach our goals/success stories. So, we decided to put one machine in a central locked location where only essential authorized personal can use it one on one with residents. These s personal our trained on how to properly disinfect the machine before and after every use. Concordia at Sumner decided to order one focus take for our community (this will be a easier to store and clean) this way we will still be able to utilize the IN2L technology.

We continue to keep in contact with the co-founder of the IN2L company Jack York and continue to work closely with restorative and therapy to ensure that our residents are utilizing the machines to the fullest.

VISION STATEMENT

Serving the True God by providing for the needs of His people.

MISSION STATEMENT

To serve our aging community with the highest quality of services through a continuum of caregiving options provided in a Christian environment, and to serve those with limited funds to the best of our ability.

**Concordia
at Sumner**

970 Sumner Parkway • Copley, OH 44321

Last quarter we completed the goal to have 25 my stories and 30 my pages for our long term care residents. This quarter we have continued to update these monthly By the end of this quarter have had had:

- Twenty- four my stories (updated with latest census)
- Twenty- nine my pages completed (updated with the latest census)
- Out of the thirty-two my pages, three of them are for therapy, restorative, and a relaxation page.

The continued documentation of date, time, activity and reaction of the resident continues to occur. This practice allows staff to analyze, track and trend applications. We continue to utilize the IN2L machines in small groups, large groups, and one on ones prior to the pandemic and will do this post pandemic. This quarter we utilized the machines for our family nights, entertainers, Valentine's Day, Super Bowl, and St. Patrick's Day. The residents continue to display positive outcomes in all areas of care. I have been accessing resources and guidance through our IN2L contact, Melonie Tindall, to determine progress with the grant goals. We optimistically anticipate continued success in the upcoming six teen months of this project.

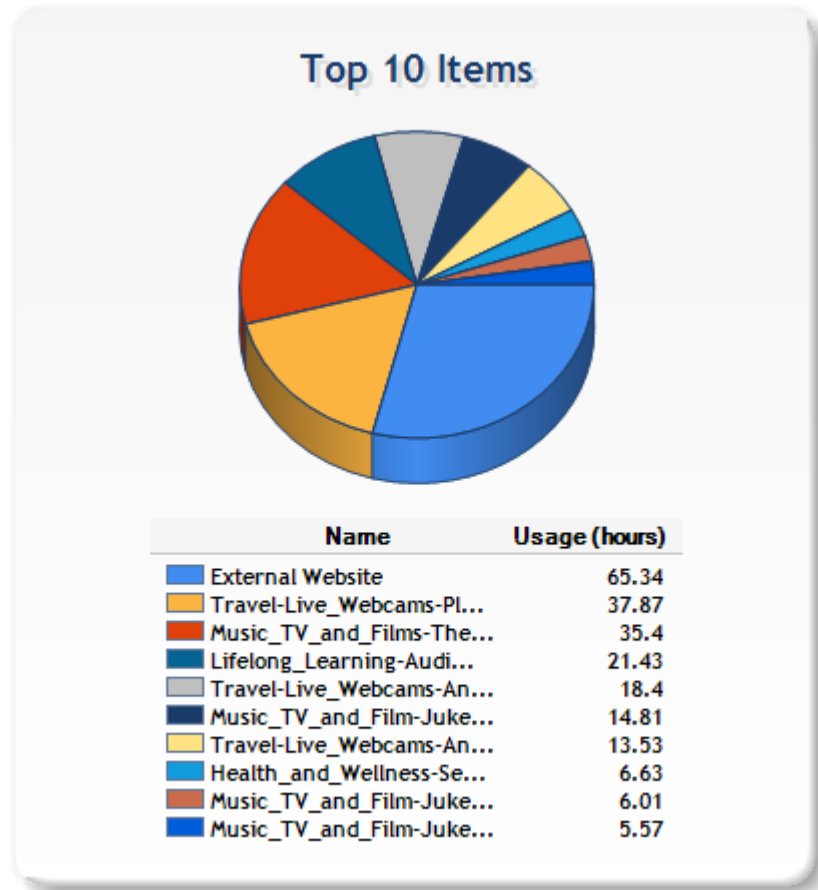

Sincerely,

Erin Rorar, CDP

IN2L Grant Facilitator
