

## Ohio Medicaid Budget Variance Report – May 2019

The Ohio Medicaid Budget Variance Report provides a monthly review of actual Medicaid expenditures compared to disbursement estimates for FY19. Through May 2019, the total variance of the Medicaid Program was \$1,635.9 million (-6.3%) under the \$26.1 billion estimate. About half of the overall variance is in Managed Care. The state share of spending from the GRF 651525 line item, the primary funding source for services, was under estimate by \$154 million (-4%) through May. Lower than anticipated caseload drove most of the variance year to date. For the month of May, timing of DODD payments (all federal share) drove most of the variance.

- While lower than projected caseload is driving significant overall underspending, the much more important GRF state share variance is smaller. Lower than projected managed care caseload is driving lower than projected member month assessment revenue deposits into fund 5TN0. Additionally, drug rebate revenue is lower than projected. This has resulted in underspending in non GRF line items, which drives spending to 651525. The overall variance in the 651525 line item is also disproportionately federal, as a significant share of the variance is from lower than projected expansion enrollment. For the month of May, the state share of the GRF 651525 line item was under estimate by \$13.2 million (-3.1%).
- The majority of variance is in Managed Care. CY2019 managed care capitation rates came in lower than projected. Caseload is also below projections, especially in the CFC and Expansion categories. Capitation payment underspending was concentrated in the CFC and Expansion rate cells. CFC was closer to estimate for the month, due to timing of delivery payments, which had contributed \$40 million of underspending in April.
- Spending in the ODM fee for service (FFS) category was lower than projected through May due to the decline in FFS enrollment. FFS underspending occurred in Aging waivers, Medicaid Schools Program, and non-institutional providers.
- Medicare Premium Assistance Payments were under estimate by \$84.2 million through the month of May. The current-month variance is -7.6%, driven by caseload and lower than projected 2019 Part B premiums.
- The waterfall graph below indicates the sources of the budget variance through May:

- Overall [caseload](#) was 127,834 (-4.3%) under estimate for the month of May. Covered Families and Children (CFC) enrollment was below projections by over 27,000 (-1.7%) and Expansion enrollment was under projections by over 51,000 (-7.7%).
