

Ohio Medicaid Budget Variance Report – February 2020

The Ohio Medicaid Budget Variance Report provides a monthly review of actual Medicaid expenditures compared to disbursement estimates for FY20. Through February 2020, the total variance of the Medicaid Program was (0.5%) under the \$18.8 billion estimate. The state share of spending from the GRF 651525 line item, the primary funding source for services, was under estimate by \$17.8 million (0.6%) through February. However, the total budget for 651525 is over estimate by \$103.8 million due to higher than projected spending on CFC and Group VIII/Expansion managed care—spending which is disproportionately federal share. Please note: the impact of the public health emergency for COVID-19 is not yet captured by the variance report. We anticipate budgetary impacts going forward, and Ohio Medicaid’s budget will be monitored closely for unanticipated fiscal impacts.

- Managed Care is running over estimate by 1.4% year-to-date. February payments were under the estimate by \$5.2 million or 0.3%. The managed care population continues to have a significant degree of higher than anticipated morbidity, concentrated in the Covered Families and Children (CFC) population and the Group VIII expansion. This has resulted in a retrospective rate adjustment made for CY2019 that totaled \$232.7 million, paid in December 2019 and January 2020.
- The morbidity issue is also driving higher than anticipated managed care rates for CY2020. Overall, the 2020 managed care rates are approximately three percent higher than assumed in the budget. MyCare rates are lower than projected for CY2020. Because the FMAP rate is much higher on the managed care program, the net state share is calculated to be neutral, but federal share spending is higher than anticipated. Lower than projected managed care caseload is mitigating some of the rate impact.
- Although the state share of 651525 is under estimate, overall payments for the line item are over estimate due to the increased managed care payments. Total spending in the 651525 line item is now over estimate by 1.1% due to the retrospective rate adjustment related to CY2019.
- Medicare Premium Assistance Payments were under estimate by \$18.9 million, or 2.5%, through the month of February. Medicare Buy In is driving \$11.1 million of variance in this category.
- The waterfall graph below indicates the sources of the budget variance through February:

- There was little variance in total [caseload](#) for the month of February. Overall caseload was 29,710 (1.06%) under estimate for the month. Covered Families and Children (CFC) enrollment was under projections by 29,891 (1.89%) and Expansion enrollment was over projections by 4,669 (0.78%). ABD/MBIWD/Dual enrollment was under estimate by 3,068 (0.62%).
