

Ohio Medicaid Budget Variance Report – January 2021

The Ohio Medicaid Budget Variance Report provides a monthly review of actual Medicaid expenditures compared to disbursement estimates for FY21. Through January 2021, the total variance of the Medicaid Program was \$989 million (5.1%) under the \$19.3 billion estimate. Underspending in SFY 2021 has been factored into the Executive Budget forecast for the SFY 2022-23 budget process.

- Managed care spending is under estimate by \$693.3 million (5.3%) year to date. Spending was under estimate for the month due to lower than anticipated caseload. The variance increased this month due to January rates coming in lower than projected.
- Fee for service and other payments are under estimate by \$220.6 million (5.0%) year to date. FFS spending was under estimate for the month due to lower than anticipated caseload.
- Medicare Premium Assistance Payments were over estimate for the month by \$1.1 million (1.1%). The variance is due to higher than projected numbers of premiums paid.
- Administration is under estimate year to date due to lower than estimated IT-related expenses. This is mainly due to timing of payments.
- Variance in ALI 651525 is disproportionately state share in January. The disbursement estimate assumed enhanced FMAP through December of 2020, but states have been informed that it will continue through the end of CY2021.
- The waterfall graph below indicates the sources of the budget variance through January:

Total [caseload](#) was under estimate for the month of January by 398,240 (11.27%). Covered Families and Children (CFC) enrollment was under projections by 243,340 (12.22%), Expansion enrollment was under by 134,207 (15.05%) and ABD/MBIWD/Dual enrollment was under estimate by 22,450 (4.37%). Caseload has increased by about 352,000 (12.6%) since February 2020, largely due to the suspension of routine terminations as part of the enhanced FMAP maintenance of effort requirement. The increase from December to January was about 25,000 (0.8%).
