A Mass Change EDBC Batch will run after adverse action in November but prior to, or on, the last day of adverse action for December, so that benefits can be impacted as of January 1, 2023.

A journal entry will be automatically entered when the Mass Change EDBC Batch was successful. A Notice of Action (NOA) will be generated advising of any changes.

An alert or report will be provided for program blocks that are excluded from the Mass Change EDBC Batch. The assigned worker will need to review these cases to determine whether a manual EDBC is needed depending on the fallout reason, issue a manual NOA if there is an eligibility change, and document with a journal entry.
