

Dear Trading Partners,

The Ohio Department of Medicaid (ODM) is pursuing improvements to our current infrastructure as it relates to all EDI transactions. These improvements will also move us toward a more complete HIPAA compliance. To accomplish these enhancements there will be a change to the URLs where files are delivered and retrieved.

We are expecting that this change will make connectivity more simplified regardless of the connection method used. We will implement the change to the CERT / Test region first so that any trading partner who wishes to test connectivity or automated processes can do this in advance. These same changes will be implemented to Production in December 2019.

There are no changes to your User ID or Passwords. Below are the new URLs for the CERT / Test region. The change to the CERT / Test URL will be **Monday October 21, 2019**. At that time the old URL/hostname for CERT / Test will be deactivated, and all EDI transactions must be submitted and retrieved through the new URL or hostname. There will be no changes to the internal mailbox structure.

New User Guides will be available on the Trading Partner website prior to Monday October 21, 2019.

CERT / Test	
Web-based User Interface (HTTPS)	https://mft.uat.oxisaas.com/oxifilegateway
SFTP Interface	sftp.mft.uat.oxisaas.com:2222
CERT / Test Real-Time Services	
SOAP	https://hde.uat.oxisaas.com/OXiHDEServices/v1.0
MIME	https://hde.uat.oxisaas.com/OXiHDEServicesMIME/v1.0

During our internal testing we have identified several issues that do not cause a file to fail compliance today but will cause failure after this upgrade. Please examine your EDI transactions to make sure that your files do not contain any of these anomalies.

1	ASCII Control Character (SUB) after the IEA segment.	<code>GE*1*876843478~IEA*1*000008674~SUB</code>
2	NULL characters after the IEA segment. While this is a bundled X12, there is a new line after the IEA.	<code>~IEA*1*001860100~IE NULNULNULNUL</code>

[Type text]

3	GS02 with spaces after the TP Id	GS*HS*0012345 *MMISODJFS*20190711*
4	NPI prefixed or followed by spaces	NM1*DK*1*LAST*FIRST****XX* 1234567891~ NM1*DK*1*LAST*FIRST****XX*1234567891 ~
5	2 segment separators found together	N3*3710 MAIN STREET~~
6	Multiple ISA/IEA envelopes with one containing a different sender id	Note: while it is permissible it is recommended that only 1 ISA/IEA be submitted per file.
7	Loop 2010AA – Billing Provider Address N3 segment <u>MUST NOT</u> be a P.O. Box	N3*PO BOX 1953~ N3*575 O-G RD STE 3, PO BOX 312~
8	Use of Loop 2320 AMT*A8. If the AMT*A8 is used no other AMT segment or CAS segments are permitted. See TR3 Segment rules.	SBR*P*18**MEDICARE*****MA~ CAS*CO*97*405**18*110**45*133.29**253*1.72~ CAS*PR*2*21.54~ AMT*D*0~ AMT*EAF*21.54~ AMT*A8*75600~
9	Use of Loop 2320 AMT*A8. If the AMT*A8 is used the DTP*573 is not used.	SBR*P*18**MEDICARE*****MA~ AMT*EAF*21.54~ AMT*A8*75600~ NM1*IL*1*ABCDEFGH*ABCDEFGH*A***MI*MBI~ NM1*PR*2*ABCDEFGH*****PI*100~ DTP*573*D8*20190417~
10	When one of the 2330 Provider Loops are present, there must be a corresponding 2310 Provider Loop	837 P Examples: 2310A NM1 must be present when 2330C NM1 Present 2310B NM1 must be present when 2330D NM1 Present 2310C NM1 must be present when 2330E NM1 Present 2310D NM1 must be present when 2330F NM1 Present
11	Use of the Loop 2320 AMT*D. When 2320 CAS segment is present 2320 AMT*D must also be present even if zero.	SBR*P*18**Molina*****MC~ CAS*CO*177*0~ AMT*D*0 OI***Y*P**Y~ NM1*IL*1*ABCDE*ABCDEF****MI*999111222399~ N3*123 Westview Ave~ N4*SOMETOWN*OH*44425~ NM1*PR*2*ABCDEFGHIJKLMNPOQ*****PI*20149~

The go-live date for this change in Production is December 8, 2019. Additional communications will be sent to provide the new URLs for the Production region in the near future.
