- **Getting Started Booklet**

This is a single-page guide to help set up your Sandata EVV account, save bookmarks and access help.

- **Santrax Call Reference Guide (CRG)**  
For providers using the Telephony option to capture visits, this guide contains the English and multi-language toll-free numbers you call into at the start and end of your visits. It also includes step-by-step directions on how Telephony works and the service code numbers to use for your service(s).
- **Device Requests and Returns**  
Device requests and returns can be done in eTRAC. Providers who use the Sandata Mobile Application on their personal phone or capture visits via telephony or manual entry do not need to request a device.

Support is here to help with any questions or issues you may have with the EVV system or devices.
