Ohio | Department of Medicaid

HIPAA Transaction Standard Companion Guide

Refers to the Implementation Guides Based on ASC X12 version 005010

837 Institutional Fee-For-Service Claims

This Companion Guide has been developed in coordination with the new Ohio Medicaid Enterprise System (OMES) and provides trading partners information needed to meet future OMES EDI requirements. Trading Partners should not use the instructions in this Companion Guide to submit production files until the official implementation of the new OMES.

Preface

This Companion Guide to the v5010 ASC X12N Implementation Guides and associated errata adopted under HIPAA clarifies and specifies the data content when exchanging electronically with ODM. Transmissions based on this companion guide, used in tandem with the v5010 ASC X12N Implementation Guides, are compliant with both ASC X12 syntax and those guides. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guides adopted for use under HIPAA. The Companion Guide is not intended to convey information that inany way exceeds the requirements or usages of data expressed in the Implementation Guides.

All rights reserved. This document may be copied.

EDITOR'S NOTE:

This page is blank because major sections of a book should begin on a right-hand page.

1 INTRODUCTION

This section describes how ASC X12N Implementation Guides (IGs) adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that ODM hassomething additional, over and above, the information in the IGs. That information can:

1. Limit the repeat of loops, or segments
2. Limit the length of a simple data element
3. Specify a sub-set of the IGs internal code listings
4. Clarify the use of loops, segments, composite, and simple data elements
5. Any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with ODM

In addition to the row for each segment, one or more additional rows are used to describe ODM's usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description ofthe transaction set companion guides.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
193	2100C	NM1	Subscriber Name			This type of row always exists to indicate that a new segment has begun. It is always shaded at 10% and notes or comment about the segment itself goes in this cell.
195	2100C	NM109	Subscriber Primary Identifier		15	This type of row exists to limit the length of the specified data element.
196	2100C	REF	Subscriber Additional Identification			
197	2100C	REF01	Reference Identification Qualifier	18, 49, 6P, HJ, N6		These are the only codes transmitted by ODM.
			Plan Network Identification Number	N6		This type of row exists when a note for a particular code value is required. For example, this note may say that value N6 is the default. Not populating the first 3 columns makes it clear that the code value belongs to the row immediately above it
218	2110C	EB	Subscriber Eligibility or Benefit Information			
231	2110C	EB13-1	Product/Service ID Qualifier	AD		This row illustrates how to indicate a component data element in the Reference column and also, how to specify that only one code value is

						applicable.

1.1 SCOPE

ODM developed 5010 Companion Guides to supplement each 5010 Transaction Implementation Guide, based on Version 5, Release 1, with regards to:

- Specific Codes and/or Values that are unique to ODM to accept an Inbound Transaction

ODM Companion Guides will not create a Non-Compliant Transaction

This companion guide is intended to be used in conjunction with the ASC X12N/005010X223 Implementation Guide (IG). It provides supplementation instructions not included in the IG that must be followed for implementation and conducting the transaction with ODM. It does not change the requirements of the IG in any way.

1.2 OVERVIEW

The Health Insurance Portability and Accountability Act (HIPAA) require all Providers, Trading Partners and Payers in the United States to comply with the Electronic Data Interchange (EDI) Standards for Health Care.

The ASC X12 HIPAA 837 Institutional Implementation Guide presents the basic requirements for planning and implementing an EDI-based system for the exchange of ASC X12 HIPAA compliant transactions with the Ohio Medicaid Enterprise System (OMES). In order to create a HIPAA compliant transaction, you must first meet the requirements of the ASC X12 HIPAA 837 Institutional Implementation Guide and then incorporate the ODM specific requirements.

The segments and elements used in this document are necessary for the ODM adjudication system for Institutional Claims.

6 CONTROL SEGMENTS/ENVELOPES

6.1 ISA-IEA

This section describes ODM's use of the interchange control segments. It includes a description of expected sender and receiver codes, authorization information, and delimiters.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
C.3		ISA	Interchange Control Header			
C.4		ISA01	Authorization Information Qualifier	00		No Authorization Information Present (No Meaningful Information in ISA02)
C.4		ISA03	Security Information Qualifier	00		No Security Information Present (No Meaningful Information in ISA04)
C.4		ISA05	Interchange ID Qualifier	ZZ		Mutually Defined
C.4		ISA06	Interchange Sender ID			7-digit Trading Partner ID assigned by ODM. This is a fixed-length field and should be left justified and filled with spaces to meet the minimum length requirement of 15.
C.4		ISA07	Interchange ID Qualifier	ZZ		Mutually Defined
C.4		ISA08	Interchange Receiver ID	MMISODJFS 0021920 0002937 0004202 0003150 0021919 0007316 0007610 0021914		This is a fixed-length field and should be left justified and filled with spaces to meet the minimum length requirement of 15. All ODM Trading Partner IDs should be 7-digits which include leading zeros. MMISODJFS = Ohio Dept of Medicaid Fee for Service 0021920 = AmeriHealth Caritas Ohio, Inc. 0002937 = Anthem Blue Cross Blue Shield 0004202 = Buckeye Community Health Plan 0003150 = CareSource 0021919 = Humana Health Plan of Ohio, Inc. 0007316 = Molina Healthcare of Ohio 0007610 = United Healthcare Community Plan

All rights reserved. This document may be copied.

						of Ohio, Inc 0021914 = Aetna OhioRISE
C.5		ISA13	Interchange Control Number			Must be identical to the associated interchange control trailer IEA02
C.6		ISA14	Acknowledgment Requested	0		No Interchange Acknowledgment Requested

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
C.10		IEA	Interchange Control Trailer			
C.10		IEA01	Number of Included Functional Groups			Number of included functional groups.
C.10		IEA02	Interchange Control Number			The control number assigned by the interchange sender. Must be identical to the value in ISA13.

6.2 GS-GE

This section describes ODM's use of the functional group control segments. It includes a description of expected application sender and receiver codes. Also included in this section is a description concerning how ODM expects functional groups to be sentand how ODM will send functional groups. These discussions will describe how similar transaction sets will be packaged and ODM's use of functional group control numbers.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
C.7		GS	Functional Group Header			
C.7		GS02	Application Sender's Code			7-digit Trading Partner ID assigned by ODM
C.7		GS03	Application Receiver's Code			
C.8		GS06	Group Control Number			Must be identical to the value in GE02.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
C.9		GE	Functional Group Trailer			
C.9		GE01	Number of Transaction Sets Included			Number of included transaction sets.
C.9		GE02	Group Control Number			The functional group control number. Must be the same value as GS06.

6.3 ST-SE

This section describes how ODM uses transaction set control numbers.

All rights reserved. This document may be copied.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
67		ST	Transaction Set Header			
67		ST02	Transaction Set Control Number			Identical to the value in SE02

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
488		SE	Transaction Set Trailer			
488		SE01	Number of Included Segments			Total number of segments included in a transaction set including ST and SE segments
488		SE02	Transaction Set Control Number			Transaction set control number. Identical to the value in ST02.

All rights reserved. This document may be copied.

7 PAYER SPECIFIC BUSINESS RULES AND LIMITATIONS

In order to receive 837 Institutional X12 transactions, Trading Partners must be certified by Ohio Medicaid and in active status. These details are documented in the Trading Partner Information Guide which can be found at this link - Trading Partners | Medicaid (ohio.gov).

Medicaid is the payer of last resort. The claim must first be adjudicated by all payers submitted in the 2330B loop before submitting the claim to ODM, unless an exception set forth in Rule 5160-1-05 or 5160-1-08 Coordination of benefits of the Ohio Administrative Code (OAC) applies. The total amount paid by the payer in 2330B for all services on the claim must be submitted (AMT 2320). If the payer in 2330B adjudicated the claim at the claim/header level, the associated Adjustment Code Group (s), Adjustment Reason Code(s) and Amount(s) must be submitted in this loop/segment. If the payer in 2330B adjudicated the claim at the detail level (i.e., made line payments and/or made line adjustments that caused the line payment to differ from the line billed charges), the 2430 loop must be completed. If the payer in 2330B adjudicated the claim at the detail but made some adjustments at the header/claim level that caused the claim payment to differ from the sum of the line payments, the 2320 CAS must be submitted in addition to the appropriate adjustments made in 2430 CAS.

Most inpatient institutional claims are adjudicated at the header/claim level.

There is guidance around the use of the SV201 (Service Line Revenue Code) element in the 2400 loop.

- For Independent Free-standing ESRD Dialysis Clinics, the following revenue codes do not allow procedure (CPT/HCPCS) codes:

  0821-Hemodialysis
  0831-IPD
  0841-CAPD
  0851-CCPD
  0825-Hemodialysis Support Services
  0835-IPD Support Service
  0845-CAPD Support Services
  0855-CCPD Support Services0829-Hemodialysis Training
  0839-IPD Training
  0849-CAPD Training
  0859-CCPD Training

- For Independent Free-standing Dialysis Clinics, the following revenue center codes do require procedure (CPT/HCPCS) codes:

  0304 - Clinical Laboratory
  0310 - Pathological Laboratory
  0730 - Diagnostic Services
  0634 - Erythropoietin (EPO) less than 10,000 units
  0635 - Erythropoietin (EPO) 10,000 units or greater
  0636 - Separately billable drugs / injections / immunizations

- For Nursing Facility room and board claims, the valid revenue codes are:

  0101 - All-inclusive room and board0160 - All-inclusive room and board for a short-term stay for waiver consumer
  0183 - Therapeutic leave
  0185 - Hospitalization leave

All rights reserved. This document may be copied.

0220 - Flat Fee: Full Day (relates to RCC 0101) for a PA1/PA2
0169 - Flat Fee: Short-term NF stay for Waiver consumer (relates to RCC 0160) for a PA1/PA2
0189 - Flat Fee Leave Days (relates to RCC 0183 & 0185) for a PA1/PA2
0419 - All-inclusive room and board for ventilator-dependent resident (in approved Vent NF)
0410 – All-inclusive room and board for ventilator weaning resident (in approved Vent NF)

- For Nursing Facility and ICF-IID room and board claims, include billed charges or non-covered charges associated with each revenue codes billed. Long Term Care facility room and board claims do not require procedure (CPT/HCPCS) codes. See Note for Loop 2400: DTP-Service Line Date.

- For ICF-IID room and board claims, the valid revenue codes are:

  0101 – All-inclusive room and board
  0160 - All-inclusive room and board for a short-term stay for waiver consumer
  0182 - Patient Convenience (Visits with Friends and Family Leave)
  0183 - Therapeutic Leave
  0185 - Hospitalization
  0410 - Respiratory Services (Ventilator add-on)

All rights reserved. This document may be copied.

8 ACKNOWLEDGEMENTS AND/OR REPORTS

8.1 The TA1 Technical Acknowledgement

The TA1 allows the receiver of a file to notify the sender that an invalid interchange structure was received or that problems were encountered. The TA1 verifies only the interchange header (ISA/GS) and trailer (IEA/GE) segments of the file envelope.

For batch and real-time transactions, if ISA or GS errors were encountered then the generated TA1 report with the Interchange Header errors will be returned for pickup.

8.2 The 999 Implementation Acknowledgement

For batch transactions, each time a properly formatted 5010 X12 file is submitted to Ohio Medicaid, an accepted 999 acknowledgement is returned to the submitter. If the file submitted is rejected, a negative 999 is produced and returned to the submitter.

8.3 824 Application Advice

For batch transactions, the 824 transaction set is used to report the rejection of a transaction that does not meet WEDI SNIP Type 7 compliance.

8.4 Report Inventory

If a 5010 X12 file fails compliance, an HTML report file is returned to the submitter. This file contains details that will assist the submitter to identify the issue and correct the problem.

All rights reserved. This document may be copied.

9 TRADING PARTNER AGREEMENTS

9.1 TRADING PARTNERS

These details can be found in the Trading Partner Information Guide which can be found at this link - Trading Partners | Medicaid (ohio.gov)

2022 © ODM

All rights reserved. This document may be copied.

10 TRANSACTION SPECIFIC INFORMATION

This section describes how ASC X12N Implementation Guides (IGs) adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that ODM has something additional, over and above, the information in the IGs. That information can:

1. Limit the repeat of loops, or segments
2. Limit the length of a simple data element
3. Specify a sub-set of the IGs internal code listings
4. Clarify the use of loops, segments, composite, and simple data elements
5. Any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with ODM

In addition to the row for each segment, one or more additional rows are used to describe ODM's usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
68		BHT	Beginning of Hierarchical Transaction			
68		BHT02	Transaction Set Purpose Code	00		Original
69		BHT06	Claim Identifier	CH		Chargeable
71	1000A	NM1	Submitter Name			
72	1000A	NM109	Submitter Identifier			7-digit Ohio Medicaid Trading Partner ID assigned by ODM
76	1000B	NM1	Receiver Name			
77	1000B	NM109	Receiver Primary Identifier			
84	2010AA	NM1	Billing Provider Name			
86	2010AA	NM109	Billing Provider Identifier			Provider NPI
107	2000B	HL	Subscriber Hierarchical Level			For Ohio Medicaid, the "insured", "subscriber" and the "patient" are always the same person.

All rights reserved. This document may be copied.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
108	2000B	HL04	Hierarchical Child Code	0		No subordinate HL segment in this hierarchical structure.
109	2000B	SBR	Subscriber Information			
110	2000B	SBR09	Claim Filing Indicator Code	MC		
112	2010BA	NM1	Subscriber Name			
113	2010BA	NM108	Identification Code Qualifier	MI		
114	2010BA	NM109	Subscriber Primary Identifier			Medicaid member ID assigned by ODM
122	2010BB	NM1	Payer Name			
123	2010BB	NM108	Identification Code Qualifier	PI		
123	2010BB	NM109	Payer Identifier			See Section 7
143	2300	CLM	Claim Information			
145	2300	CLM05-3	Claim Frequency Code	1, 2, 3, 4, 7, 8		1 = Original claim submission 2 = Interim – First Claim 3 = Interim – Continuing Claim 4 = Interim – Last Claim 7 = Replacement (adjustment) 8 = Void/cancel of prior claim.
156	2300	PWK02	Report Transmission Code	AA, EL, FT		
160	2300	AMT	Patient Estimated Amount Due			
160	2300	AMT01	Amount Qualifier Code	F3		Patient Responsibility - Estimated
160	2300	AMT02	Patient Responsibility Amount			

All rights reserved. This document may be copied.

Page #	Loop ID	Reference	Name	Codes	Length	Notes/Comments
174	2300	REF	Demonstration Project Identifier			Used for vendor approved resubmissions.
174	2300	REF01	Reference Identification Qualifier	P4		Project Code
174	2300	REF02	Demonstration Project Identifier			Original ICN
178	2300	NTE	Billing Note			
178	2300	NTE01	Note Reference Code	ADD		ADD – when the non-emergency emergency co-payment applies (See NTE02 comments) ADD – will be used by providers to denote timely filing exemption (See NTE02 Comments)
178	2300	NTE02	Billing Note Text			For hospitals, when the non-emergency emergency co-payment applies, the 10-character code (COPAY NEMR) must be the first item listed in the NTE02. There must always be a single space between the word COPAY and NEMR. Example: NTE*ADD*COPAY NEMR When a claim could not be filed within the normal claim filing limit due to the pendency of an administrative hearing decision by ODM or an eligibility determination by a County Department ofJob and Family Services (CDJFS) the (1)or (2) below applies. (1) For appeals/hearings, report the appeals/hearing number and date (The XXXXXXX is the hearing number) in thisformat: **APPEALS XXXXXXX CCYYMMDD** (2) For a delayed eligibility determination,enter the eligibility determination decision notice date in

All rights reserved. This document may be copied.

11 APPENDICES

This section contains one or more appendices.

11.1 Implementation Checklist

See Trading Partner Information Guide found here: Trading Partners | Medicaid (ohio.gov).

11.2 Business Scenarios

Using a NF claim that was billed with Header first date of service (FDOS) 9/1/11 and last date of service (TDOS) of 9/30/11 and 7 Detail Lines, the FDOS and TDOS for those detail lines will be determined as follows:

1) 101 (covered)	Units Billed = 1	FDOS = 9/1/11	TDOS = 9/1/11
2) 101 (non-covered)	Units Billed = 6	FDOS = 9/2/11	TDOS = 9/7/11
3) 185 (covered)	Units Billed = 5	FDOS = 9/8/11	TDOS = 9/12/11
4) 101 (covered)	Units Billed = 1	FDOS = 9/13/11	TDOS = 9/13/11
5) 101 (non-covered)	Units Billed = 7	FDOS = 9/14/11	TDOS = 9/20/11
6) 185 (covered)	Units Billed = 2	FDOS = 9/21/11	TDOS = 9/22/11
7) 185 (covered)	Units Billed = 8	FDOS = 9/23/11	TDOS = 9/30/11

11.3 Transmission Examples

This appendix contains actual data streams linked to the business scenarios from Appendix 2.

11.4 Frequently Asked Questions
