Introduction

As required in Appendix K of the *MyCare Ohio Provider Agreement*, the MyCare Ohio Plan (MCOP) must provide care management services as specified in the agreement. The MCOP should refer to Appendix K and Section 2.5 of the *Three-Way Agreement* for specific details on care management program requirements. As required in Appendix L of the *MyCare Ohio Provider Agreement*, the MCOP must submit an electronic file of care management status data for all specified members to the Ohio Department of Medicaid (ODM).

This document describes the file layout, data field definitions, and submission procedures to be used for the reporting of the MCOP's care management status data. Quarterly (Q1: January 1–March 31, Q2: April 1–June 30, Q3: July 1–September 30, and Q4: October 1–December 31), full replacement files must be submitted to IPRO, on behalf of the ODM, by the last calendar day of the month following the end of a quarter (January, April, July, and October). Prior to this date, the ODM/IPRO will supply MCOP-specific enrollment files containing all members by enrollment month; every member that appears in the enrollment file provided by the ODM with an enrollment span that includes dates within calendar year 2020 must also appear in the MCOP's care management status data file submission.

The care management statuses are: outreach and coordination, engaged, and inactive. The three care management statuses are mutually exclusive (i.e., a member cannot be assigned to more than one status at a time), and for every enrollment span listed in the verified enrollment file, members must have corresponding care management status assignment spans. Separate data rows must be submitted each time a member changes their care management status; simultaneous spans representing changes in care management status assignments may not overlap. Each row in the data submission should be representative of the unique care management status to which a member was assigned for the specified date span associated with that data row. For members enrolled as of January 1, 2020, the initial care management status assignment date may not precede January 1, 2020. If a member that is currently enrolled has a start date prior to January 1, 2020, their effective date must be January 1, 2020. For new members (enrolled after January 1, 2020), the initial care management status assignment date must be on or after the member's enrollment effective date. Please see Appendix A for an example of how to submit full replacement information.

HIPAA Security Measures

In accordance with federal privacy and security requirements per the Health Insurance Portability and Accountability Act (HIPAA), certain data transfers—including the care management status data file submitted to IPRO on behalf of the ODM—must be submitted via secure file transfer protocol.

Data File Submission Certification Form

Pursuant to 42 CFR 438.604 and 438.608, the MCOP is required to certify the accuracy, completeness, and truthfulness of data and documents submitted to the ODM that may affect MCOP payment. The MCOP is required to provide a data certification form for each care management status data file submission. A copy of the data file submission letter of certification is found in Appendix C of this document.

Only care management status data files submitted with a data file submission certification form will be accepted by IPRO on behalf of the ODM. IPRO staff will follow up with the MCOP if a form has not been submitted with the initial file due on the last calendar day of the month.

File Name

The name for the care management status file contains unique characters identifying the file type, the submitter's ID, and the month and year of submission.

Care Management Status File

The care management status file should be submitted as a comma separated value (CSV) file. The care management status file name has the format presented in **Table 1**:

Table 1: Care Management Status File Name Format: MCOxxxmmyy.CM99

Position	Symbol	Description
1-3	MCO	MCO = MyCare Ohio
4-6	xxx	xxx = Submitter ID
7-10	mmyy	mm = Month of submission yy = Year of submission
11-15	.CM99	CM = Care management 99 = Number of monthly file submission Note: The first file submission of the month should be denoted as "00." This number should increase by 1 with each new file submission.

MCOxxx0720.CM00

For example, the file name of the Population Stream file submission for January 2020 would be: MCOxxx0120.CM00
