**Overall Care Management Rate: High Risk Care Management (Engaged and Passive Participation Care Management Status)**

*The high risk care management rate for members during the reporting periods specified below.*

**Numerator:** Sum of the numerators used to calculate the monthly high risk care management rate during the measurement period.

**Denominator:** Sum of the denominators used to calculate the monthly high risk care management rate during the measurement period.

**Monthly High Risk Care Management Rate:**

**Numerator:** The number of members assigned to the high risk care management stratification level, who were also classified as having an engaged or passive care management status, on the first day of the reporting month.

**Denominator:** The total number of members enrolled in the MCP on the first day of the reporting month.

**\*Exclusions:** Given these measurement periods fall outside the January – June 2017 transition period, members who are assigned a Comprehensive Primary Care (CPC) status are not eligible for inclusion in the numerator or denominator of this measure.

***Example:***

Month	High Risk Stratification and Engaged or Passive CM Status	Total Members	High Risk CM Rate
July	900	100,000	0.90%
August	1,100	110,000	1.00%
September	1,350	110,000	1.23%
October	1,150	120,000	0.96%
November	1,100	120,000	0.92%
December	1,300	130,000	1.00%
<b>Overall Rate</b>	<b>6,900</b>	<b>690,000</b>	<b>1.00%</b>

**Measurement Periods**

July – December 2017

## High Risk Stratification Level: Engaged Care Management Status Rate

The high risk stratification level engaged care management status rate for members during the reporting periods specified below.

**Numerator:** Sum of the numerators used to calculate the monthly high risk stratification level engaged care management status rate during the measurement period.

**Denominator:** Sum of the denominators used to calculate the monthly high risk stratification level engaged care management status rate during the measurement period.

### Monthly High Risk Stratification Level Engaged Care Management Status Rate:

**Numerator:** The number of members who were assigned to the high risk care management stratification level, and who were also classified as having an engaged care management status, on the first day of the reporting month.

**Denominator:** The total number of members enrolled in the MCP on the first day of the reporting month.

**\*Exclusions:** Given these measurement periods fall outside the January – June 2017 transition period, members who are assigned a Comprehensive Primary Care (CPC) status are not eligible for inclusion in the numerator or denominator of this measure.

#### *Example:*

Month	High Risk Stratification and Engaged CM Status	Total Members	High Risk Stratification Level Engaged CM Rate
July	270	100,000	0.27%
August	550	110,000	0.50%
September	725	110,000	0.66%
October	725	120,000	0.60%
November	1,050	120,000	0.88%
December	2,200	130,000	1.69%
<b>Overall Rate</b>	<b>5,520</b>	<b>690,000</b>	<b>0.80%</b>

**Data Sources:** ODM's Medicaid and Managed Care Enrollment Data; Medicaid Managed Care Risk Stratification Data Submission File; Medicaid Managed Care Care Management Status Data Submission File
