Overall Care Management Rate: Intensive Risk Level (Engaged, Passive, and CPC Care Management Status)

The intensive risk level care management rate for members during the reporting periods specified below.

Numerator: Sum of the numerators used to calculate the monthly intensive risk level care management rate during the measurement period.

Denominator: Sum of the denominators used to calculate the monthly intensive risk level care management rate during the measurement period.

Monthly Intensive Risk Level Care Management Rate:

Numerator: The number of members assigned to the intensive risk care management stratification level, who were also classified as having an engaged, passive, or CPC care management status, on the first day of the reporting month.

Denominator: The total number of members enrolled in the MCP on the first day of the reporting month.

Example:

Month	Intensive Risk Stratification and Engaged, Passive, or CPC CM Status	Total Members	Intensive Risk Level CM Rate
January	900	100,000	0.90%
February	1,100	110,000	1.00%
March	1,350	110,000	1.23%
April	1,150	120,000	0.96%
May	1,100	120,000	0.92%
June	1,300	130,000	1.00%
Overall Rate	6,900	690,000	1.00%
