Re: BWC San Allen Payment and Cost Reports

A class action settlement has been reached in a lawsuit involving the Ohio Bureau of Workers' Compensation (BWC), and private Ohio employers who paid premiums in certain occupational classifications for policy years 2001-2008. Payments were mailed to class members whose claims were approved on June 29, 2015. More information regarding this settlement, and if it pertains to you can be found at <http://www.ohiobwclawsuit.com/>.

As stated above, this class action lawsuit pertains to a settlement for years 2001 – 2008. Any payments received from this settlement are considered a refund for prior years. For calendar year 2015 cost reporting purposes, these payments should be reported on Attachment 1 "Revenue Trial Balance" in account 5400.
