The full per diem rate is paid for days billed with one of the full day RCCs. Leave days are paid at 50% or 18% of the NF's per diem rate, based on the facility's rate of occupancy, per ORC 5165.34.

For individuals with low acuity, as identified by a PA1 or PA2 on the most recent Minimum Data Set (MDS) submission, the full covered day RCCs will be reimbursed \$115 per day. Leave Days for PA1/PA2 will be paid at 50% or 18% of the NF's per diem rate, based on the facility's rate of occupancy.

Facilities approved for participation in the NF Ventilator Program or as Health Care Isolation Centers (HCICs) have special RCCs that are available to them for billing under these special programs.
