ODM will use CMS provided crossover Claims to develop the algorithm. The number of Beneficiaries enrolled with the ICDS Plan will be limited to a level that will not exceed the ICDS Plan’s physical and professional capacity, as reasonably determined by CMS and ODM in consultation with the ICDS Plan.
 - 2.3.1.8.5.1. Adjustments to the volume of Passive Enrollment based on the capacity of the ICDS Plan will be subject to any capacity determinations including but not limited to those documented in the CMS and ODM final Readiness Review report and ongoing monitoring by CMS and the ODM.

Such documentation must demonstrate that the ICDS Plan offers an appropriate range of preventive, primary care and specialty services that is adequate for the anticipated number of Beneficiaries in the Service Area and that the ICDS Plan maintains a Provider Network as described in Section 2.6 of this Contract that is sufficient in number, mix, and geographic distribution to meet the needs of the anticipated number of Beneficiaries in the Service Area. In the event the CMT reasonably find that the ICDS Plan has failed to restore Provider or administrative capacity, the CMT may freeze Passive Enrollment during the implementation phase or take other corrective action.

2.3.1.8.7. Upon receipt of instruction by the ODM, the Ohio State Enrollment Broker may not process new Enrollments within six (6) months (or less) before the end date of the Demonstration, unless the

The ODM will provide customer service, including mechanisms to counsel Beneficiaries notified of Passive Enrollment and to receive and communicate Beneficiary choice of Opt Out to CMS via transactions to CMS' MARx system. 2.3.2.2. CMS and the ODM will monitor Enrollments, disenrollments and Opt Out requests for both evaluation purposes and for compliance with applicable marketing and Enrollment laws, regulations and CMS policies, for the purposes of identifying any inappropriate or illegal marketing practices.

2.3.2.3. The ICDS Plan shall have an Electronic Data Interchange mechanism for receiving timely information about all Enrollment and Opt Out transactions from

ODM, including the effective date of Enrollment and Opt Out from CMS, ODM and the Ohio State Enrollment Vendor's systems on a daily basis.

Termination of coverage shall take effect at 11:59 p.m. on the last day of the month prior to the month in which the County Department of Job and Family Services determines that the Beneficiary no longer resides in the Service Area. federal penal institution, termination of coverage shall take effect at 11:59 p.m. on the last day of the month in which the Beneficiary lost Medicaid eligibility based on the incarceration.

2.3.2.9.9. The termination or expiration of this Contract terminates coverage for all Beneficiaries enrolled with the ICDS Plan. Termination will take effect at 11:59 p.m. on the last day of the month in which this Contract terminates or expires, unless otherwise agreed to, in writing, by the parties.

2.3.2.10. Except as otherwise provided in Section 2.3 of this Contract, termination of a Beneficiary's coverage shall take effect at 11:59 p.m. on the last day of the month in which the Opt Out or disenrollment request is processed by ODM or designee.

2.3.2.11. The ICDS Plan shall not seek to terminate Enrollment because of an adverse change in a Beneficiary's health status or because of the Beneficiary's utilization of Covered Services, diminished mental capacity, uncooperative or disruptive behavior resulting from such Beneficiary's special needs (except to the extent such Beneficiary's continued Enrollment with the ICDS Plan seriously impairs the ICDS Plan's ability to furnish Covered Services to the Beneficiary or other Beneficiaries as defined in Section 2.4 of this Contract), or take an Adverse Benefit Determination in connection with a Beneficiary who attempts to exercise, or is exercising, his or her Appeal or Grievance rights. Any attempts to seek to terminate Enrollment in violation of this Section will be considered a breach of this Contract.

2.3.2.12. Discretionary Involuntary Disenrollment: 42 C.F.R. § 422.74 and Sections 40.3 and 40.4 of the Medicare-Medicaid Plan Enrollment and Disenrollment Guidance provide instructions to ICDS Plans on discretionary involuntary disenrollment. This Contract, applicable regulations and other guidance provide procedural and substantive requirements the ICDS Plan, ODM, and CMS must follow prior to involuntarily disenrolling a Beneficiary. If all of the procedural requirements are met, ODM and CMS will decide whether to approve or deny each request for involuntary disenrollment based on an assessment of whether the particular facts associated with each request satisfy the substantive evidentiary requirements.

2.3.2.12.1. Basis for Discretionary Involuntary Disenrollment:

2.3.2.12.1.1. Disruptive conduct: When the Beneficiary engages in conduct or behavior that seriously impairs the ICDS Plan's ability to furnish Covered Items and Services to either this Beneficiary or other Beneficiaries and provided the ICDS Plan made and documented reasonable efforts to resolve the problems presented by the Beneficiary.

2.3.2.12.1.1.1. Procedural requirements:

2.3.2.12.1.1.1.1. The ICDS Plan's request must be in writing and include all of the supporting documentation outlined in the evidentiary requirements.

2.3.2.12.1.1.1.2. The process requires three (3) written notices. The ICDS Plan must include in the request submitted to ODM and CMS evidence that the first two (2) notices have already been sent to the Beneficiary.

The notices
are:

2.3.2.12.1.1.1.2.1. Advance notice to inform the Beneficiary that the consequences of continued disruptive behavior will be a request to ODM and CMS for disenrollment. The advance notice must include a clear and thorough explanation of the disruptive conduct and its impact on the ICDS Plan's ability to provide services, examples of the types of reasonable accommodations the ICDS Plan has already offered, the Grievance procedures, and an explanation of the availability of other accommodations. If the disruptive behavior ceases after the Beneficiary receives notice and then later resumes, the ICDS Plan must begin the process again. This includes sending another advance notice.

2.3.2.12.1.1.1.2.2. Notice of intent to request the State and CMS' permission to disenroll the Beneficiary; and

2.3.2.12.1.1.1.2.3. A planned action notice advising that CMS and the State have approved the ICDS Plan's request. This notice is not a procedural prerequisite for approval and should not be sent under any circumstances prior to the receipt of express written approval and a disenrollment transaction from CMS and ODM.

2.3.2.12.1.1.2. The ICDS Plan must provide information to CMS and ODM about the Beneficiary, including age, diagnosis, mental status, functional status, a description of his or her social support systems, and any other relevant information;

2.3.2.12.1.1.3. The submission must include statements from providers describing their experiences with the Beneficiary (or refusal in writing, to provide such statements); and

2.3.2.12.1.1.4. Any information provided by the Beneficiary. The Beneficiary

can provide any information he/she wishes.

2.3.2.12.1.1.5. If the ICDS Plan is requesting the ability to decline future Enrollments for this individual, the ICDS Plan must include this request explicitly in the submission.

2.3.2.12.1.1.6. Prior to approval, the complete request must be reviewed by ODM and CMS including representatives from the Center for Medicare and must include staff with appropriate clinical or medical expertise.

2.3.2.12.2. Evidentiary standards; At a minimum, the supporting documentation must demonstrate the following to the satisfaction of both ODM and CMS staff with appropriate clinical or medical expertise:

2.3.2.12.2.1. The Beneficiary is presently engaging in a pattern of disruptive conduct that is seriously impairing the ICDS Plan's ability to furnish Covered Items and Services to the Beneficiary and/or other Beneficiaries.

2.3.2.12.2.2. The ICDS Plan took reasonable efforts to address the disruptive conduct including at a minimum:

2.3.2.12.2.2.1. A documented effort to understand and address the Beneficiary's underlying interests and needs reflected in his/her disruptive conduct and provide reasonable accommodations as defined by the Americans with Disabilities Act including those for individuals with mental and/or cognitive conditions. An accommodation is reasonable if it is efficacious in providing equal

access to services and proportional to costs. ODM and CMS will determine whether the reasonable accommodations offered are sufficient.

2.3.2.12.2.2. A documented provision of information to the individual of his or her right to use the ICDS Plan's Grievance procedures.

2.3.2.12.2.3. The ICDS Plan provided the Beneficiary with a reasonable opportunity to cure or otherwise satisfactorily address his/her disruptive conduct.

2.3.2.12.2.4. The ICDS Plan must provide evidence that the Beneficiary's behavior is not related to the use, or lack of use, of medical services.

2.3.2.12.2.5. The ICDS Plan may also provide evidence of other extenuating circumstances that demonstrate the Beneficiary's disruptive conduct;

2.3.2.12.3. Limitations: The ICDS Plan shall not seek to terminate Enrollment because of any of the following:

2.3.2.12.3.1. The Beneficiary's uncooperative or disruptive behavior resulting from such Beneficiary's special needs unless treating providers explicitly document their belief that there are no reasonable accommodations the ICDS Plan could provide that would address the disruptive conduct.

2.3.2.12.3.2. The Beneficiary exercises the option to make treatment decisions with which the ICDS Plan or any health care professionals associated with the ICDS Plan disagree, including the option of declining treatment and/or diagnostic testing.

2.3.2.12.3.3. An adverse change in a Beneficiary's health status or because of the Beneficiary's utilization of Covered Items and Services.

2.3.2.12.3.4. The Beneficiary's mental capacity is, has, or may become diminished.

- 2.3.2.12.4. Fraud or abuse: When the Beneficiary provides fraudulent information on an Enrollment form or the Beneficiary willfully misuses or permits another person to misuse the Beneficiary's ID card.
- 2.3.2.12.4.1. The ICDS Plan may submit a request that a Beneficiary be involuntarily disenrolled if a Beneficiary knowingly provides, on the election form, fraudulent information that materially affects the individual's eligibility to enroll in the ICDS Plan; or if the Beneficiary intentionally permits others to use his or her Enrollment card to obtain services under the ICDS Plan.
- 2.3.2.12.4.2. Prior to submission, the ICDS Plan must have and provide to CMS/ODM credible evidence substantiating the allegation that the Beneficiary knowingly provided fraudulent information or intentionally permitted others to use his or her card.
- 2.3.2.12.4.3. The ICDS Plan must immediately notify the CMT so that the ODM or its designee and the HHS Office of the Inspector General may initiate an investigation of the alleged fraud and/or abuse.
- 2.3.2.12.4.4. The ICDS Plan must provide notice to the individual prior to submission of the request outlining the intent to request disenrollment with an explanation of the basis of the ICDS Plan's decision and information on the Beneficiary's access to Grievance procedures and a fair hearing.
- 2.3.2.12.5. Necessary consent or release: When the Beneficiary knowingly fails to complete and submit any necessary consent or release allowing the ICDS Plan and/or Providers to access necessary health care and service information for the purpose of compliance with the care delivery system requirements in Section 2.5 of this Contract.
- 2.3.2.12.5.1. The ICDS Plan may request that a Beneficiary be involuntarily disenrolled if the Beneficiary knowingly fails to complete and submit any

necessary consent or release allowing the ICDS Plan and/or Providers to access necessary health care and service information for the purpose of compliance with the care delivery system requirements in Section 2.5 of this Contract.

2.3.2.12.5.2. The ICDS Plan must provide notice to the Beneficiary prior to submission of the request outlining the intent to request disenrollment with an explanation of the basis of the ICDS Plan's decision and information on the Beneficiary's access to Grievance procedures and a fair hearing.

2.3.2.13. The ICDS Plan may not interfere with the Beneficiary's right to disenroll through threat, intimidation, pressure, or otherwise;

2.3.2.14. If the Beneficiary transfers to another ICDS Plan, with the Beneficiary's written consent, and in accordance with Applicable Laws and regulations, the ICDS Plan must promptly transfer current Individualized Care Plan (ICP) information to the new ICDS Plan.

2.4. Covered Services

2.4.1. The ICDS Plan must authorize, arrange, and coordinate the provision of all Covered Services for its Beneficiaries. (See Covered Services in Appendix A.) Covered Services must be available to all Beneficiaries, as authorized by the ICDS Plan. Covered Services will be managed and coordinated by the ICDS Plan through the Trans-Disciplinary Care Team (see Section 2.5). The ICDS Plan must provide Medicare and Medicaid Covered Services as documented in state and federal law, federal regulation (including, but not limited to, 42 C.F.R §§ 422, 423, and 438), OAC 5160-58-03, and this Contract, and shall be sufficient to achieve the purposes for which such Covered Services are furnished. This duty shall commence at the time of initial coverage as to each Beneficiary.

2.4.1.1.1. In accordance with 42 C.F.R. §438.3(e), the ICDS Plan may provide mental health services to members ages twenty-one (21) through sixty-four (64) for up to fifteen (15) days per calendar month while receiving inpatient treatment in an institution for mental disease (IMD) as defined in Section 1905(i) of the Social Security Act. The ICDS Plan

has the option of providing IMD in lieu of services or settings covered under the State Plan; however, Beneficiaries are not required to utilize IMD and may instead utilize the State Plan covered service or setting (i.e., private general hospital, private facility with less than 17 beds). The ICDS Plan is not prohibited from contracting with an IMD to provide inpatient psychiatric services to members ages twenty-one (21) through sixty-four (64), but Medicaid will not compensate the ICDS Plan for the provision of such services beyond fifteen (15) days per calendar month either through direct payment or considering any associated costs in Medicaid rate setting. Note that the cost of IMD as an alternate service is taken into account when developing the component of the Capitation Rate that represents the State Plan covered service, in compliance with 42 C.F.R. § 438.6(e). Payments from the ICDS Plan to the IMD are established in the ICDS Plan's contractual agreement with the IMD. The ICDS Plan is required to report to ODM quarterly on IMD stays that exceed fifteen (15) days per calendar month per ODM's specifications.

2.4.2. The ICDS Plan must provide the full range of Covered Services. If either Medicare or Medicaid provides more expansive coverage for services than the other program does for a particular condition, type of illness, or diagnosis, the ICDS Plan must provide the most expansive set of services required by either program. The ICDS Plan may not limit or deny services based on Medicare or Medicaid providing a more limited range of services than the other program. For overlapping Medicare and Medicaid services, the ICDS Plan shall develop policies and procedures that minimize administrative burdens and streamline how providers deliver and Beneficiaries receive these services.

2.4.2.1. The ICDS plan shall also develop authorization and payment procedures to ensure that services that are covered by both Medicare and Medicaid are reasonably attributed to Medicare as the primary payer for purposes of the encounter reporting required in Sections 2.14 and 2.15 of this Contract, and in accordance with any additional CMS and ODM encounter reporting guidelines.

2.4.2.2. The ICDS Plan is required to provide or arrange for all Medically Necessary Services as described in Appendix A of this Contract, whether by subcontract or by single-case agreement in order to meet the needs of the Beneficiary.

2.4.3. Out of Network Reimbursement Rules. For reimbursement of out-of-network Emergency or Urgent Care services, as defined by 42 C.F.R. §§ 424.101 and 405.400 respectively, the Health Care Professional is required to accept as payment in full by the ICDS Plan the amounts the Health Care Professional could collect for that service if the Beneficiary were enrolled in original Medicare or Medicaid FFS. However, the ICDS Plan is not required to reimburse the Health Care Professional more than the Health Care Professional's charge for that service. A section 1861(u) provider of services may be paid an amount that is less than the amount it could receive if the Beneficiary were enrolled in original Medicare or Medicaid FFS if the provider expressly notifies the ICDS Plan in writing that it is billing an amount less than such amount. The original Medicare reimbursement amounts for section 1861(u) providers do not include payments under 42 C.F.R. §§ 412.105(g) and 413.76. For items and services that would traditionally be covered under Medicare FFS, the ICDS Plan is required to pay non-contracting Health Care Professionals and section 1861(u) providers of services the amount that the provider could collect for that service if the Beneficiary were enrolled in original Medicare (less any payments under 42 C.F.R. §§ 412.105(g) and 413.76 for section 1861(u) providers). This requirement applies regardless of the setting and type of care for authorized out-of-network services. Beneficiaries maintain balance billing protections. Nothing in the preceding provision shall restrict the right of the provider and the ICDS Plan to negotiate a lower rate of payment.

2.5. Care Delivery Model

2.5.1 Primary Care:

2.5.1.1. The ICDS Plan must ensure that each Beneficiary has a Network primary care provider (PCP) of their choice who will serve as an ongoing source of primary and preventive care and will perform care coordination activities appropriate to the Beneficiary's needs. The PCP's care coordination responsibilities include, at a minimum, the following:

- 2.5.1.1.1. Assisting with coordination of the Beneficiary's overall care, as appropriate;
- 2.5.1.1.2. Recommending referrals to specialists, non-physician provider types (e.g., nutritionists, physical therapists) and to laboratory, imaging, radiology, and other diagnostic procedures, as necessary;
- 2.5.1.1.3. Triageing Beneficiaries according to the following:
 - 2.5.1.1.3.1. Emergency care needs must be triaged and treated immediately on presentation at the PCP site;
 - 2.5.1.1.3.2. Persistent symptoms must be treated no later than the end of the following working day after the initial contact with the PCP site; and
 - 2.5.1.1.3.3. Requests for routine care must be seen within six (6) weeks.
- 2.5.1.1.4. Participating in the development of an ICP, and as a member of the Trans-Disciplinary Care Team.

2.5.1.2. Beneficiaries will be allowed to select a PCP from the ICDS Plan's network of Providers, and to change the PCP no less often than monthly. Beneficiaries who do not select a PCP will be assigned a PCP by the ICDS Plan prior to the effective date of Enrollment.

2.5.2. Population Health Management

2.5.2.1. The ICDS Plan is required to develop a model of care that broadly defines the way services will be delivered by the ICDS Plan, and includes requirements specified in Sections 2.5.2 and 2.5.3 of this Contract.

2.5.2.1.1. The ICDS Plan must address the following components as part of its model of care:

2.5.2.1.1.1. Descriptions of the population and specialized services: A comprehensive description of the ICDS Plan's population and the specialized services and resources that are tailored to the population are key to the model of care. This section of the model of the care must address the following components:

2.5.2.1.1.1.1. Risk stratification levels: The ICDS Plan must develop a risk stratification level framework for the purpose of targeting interventions and allocating resources based on the Beneficiary's needs. Using a risk stratification framework comprised of five levels (i.e., from lowest to highest: monitoring, low, medium, high and intensive), the ICDS Plan will determine the appropriate risk level based on assessed needs.

2.5.2.1.1.1.2. The ICDS Plan must identify the factors that will be considered when determining a Beneficiary's risk stratification level. At a minimum, the ICDS Plan must consider the following current and historical factors:

2.5.2.1.1.1.2.1. Receipt and duration of 1915 (c) HCBS waiver Enrollment or 1915(i) services;

2.5.2.1.1.1.2.2. Current waiver acuity level;

2.5.2.1.1.1.2.3. Change in existing Care Manager relationship;

2.5.2.1.1.1.2.4. Change in caregiver status/support ;

- 2.5.2.1.1.1.2.5. Acuity of chronic conditions;
- 2.5.2.1.1.1.2.6. Substance use and/or mental health disorders;
- 2.5.2.1.1.1.2.7. Inpatient or emergency department utilization;
- 2.5.2.1.1.1.2.8. Nursing facility or assisted living placement;
- 2.5.2.1.1.1.2.9. Poly-pharmacy;
- 2.5.2.1.1.1.2.10. Residential housing status/stability;
- 2.5.2.1.1.1.2.11. Functional and/or cognitive deficits;
- 2.5.2.1.1.1.2.12. Displayed risk factors for being institutionalized;
- 2.5.2.1.1.1.2.13. Stability of support system;
- 2.5.2.1.1.1.2.14. Gaps in care; and

2.5.2.1.1.1.2.15. Social
and/or safety
risk factors.

2.5.2.1.1.1.3. The ICDS Plan must develop
criteria and thresholds for each level
that will be used to determine
assignment to the risk stratification
level. Criteria and thresholds
established by the ICDS Plan are
subject to ODM and CMS approval.

2.5.2.1.1.2. The ICDS Plan must evaluate a Beneficiary's
risk level when there is a change in the
Beneficiary's need(s), progress in meeting care
plan goals, significant change events, etc. The
ICDS Plan must describe the trigger(s) for
changing the Beneficiary's stratification level.

2.5.2.1.1.3. The ICDS Plan must assign each Beneficiary
to a risk stratification level for each month of
Enrollment with the ICDS Plan. For Beneficiaries
newly enrolled with the ICDS Plan, an initial risk
stratification level must be assigned within the first
month of the Beneficiary's Enrollment.

2.5.2.1.2. Population Stream: The ICDS Plan must
develop a strategy that assigns each Beneficiary to
a single population stream in accordance with
ODM's population stream and corresponding
hierarchy.

2.5.2.1.2.1. ODM has established the following population
streams that will be used to organize work around
population health: women of reproductive age,
behavioral health, chronic conditions, and healthy
adults.

2.5.2.1.2.2. The ICDS Plan must have a process to
identify and track the population stream
assigned to each Beneficiary.

2.5.2.1.2.3. The ICDS Plan must provide a description for
each population stream that shall include the
incidence and prevalence of medical and behavioral

health conditions and issues that impact health status such as age, gender, ethnicity, geography, language, or other socio economic barriers that might affect the usual provision of health care services, as well as living or caregiver arrangements that might pose challenges for certain Beneficiaries.

2.5.2.1.3. Specialized services and resources: The ICDS Plan must include a description of specialized services and other resources (e.g., health and wellness programs, 24/7 nurse advice line, Care Management, etc.) for each population stream that is tailored to risk level and communities. ODM may provide structured guidance for priority population streams; if so, the ICDS Plan shall integrate that information into the model of care.

2.5.3. Care Management

2.5.3.1. The ICDS Plan must provide Care Management services to all Beneficiaries enrolled in the ICDS Plan. The ICDS Plan's approach to Care Management must be person-centered, promote the Beneficiary's ability to live independently and comprehensively coordinate the full set of Medicare and Medicaid benefits across the continuum of care including medical, behavioral, LTSS, and social needs.

2.5.3.2. The ICDS Plan must address the following components as part of its Care Management model:

2.5.3.2.1. Assessment: The ICDS Plan must have a clear description for conducting or arranging for an Assessment that is appropriate for the Beneficiary's unique circumstances and needs-e.g., medical, behavioral, LTSS and social needs. The goal of the Assessment is to identify immediate clinical, social and safety needs in order to facilitate timely follow up and action. The scope and depth of the Assessment will vary based on the Beneficiary's assigned risk level: Beneficiaries assigned to the low and monitoring risk levels will have a Health Risk Assessment per Section 2.5.3.2.1.1 of this Contract; and Beneficiaries assigned to the intensive, high, and medium risk levels and all waiver Beneficiaries must have a

Comprehensive Assessment per Section 2.5.3.2.1.2 of this Contract. In lieu of the Health Risk Assessment, an ICDS Plan may continue to administer the Comprehensive Assessment for all Beneficiaries. The ICDS Plan must assure there is a process to complete a Comprehensive Assessment when the Beneficiary, assigned to the low or monitoring level, is displaying risk factors for placement in a higher stratification level.

2.5.3.2.1.1. At a minimum, the Health Risk Assessment (HRA) must address self-assessment of health status and physical functioning, psychosocial risks, and behavioral risks. Other age appropriate domains should also be included in the HRA – e.g., ADLs, IADLs. The ICDS Plan must use a standardized Assessment approved by ODM.

2.5.3.2.1.2. At a minimum, the Comprehensive Assessment used by the ICDS Plan must be approved by ODM and CMS and include the following evaluation domains :

- 2.5.3.2.1.2.1. Behavioral health needs;
- 2.5.3.2.1.2.2. Medical needs;
- 2.5.3.2.1.2.3. Cognitive needs;
- 2.5.3.2.1.2.4. LTSS needs;
- 2.5.3.2.1.2.5. Social needs;
- 2.5.3.2.1.2.6. Nutritional needs;
- 2.5.3.2.1.2.7. Medical and behavioral health history;
- 2.5.3.2.1.2.8. Activities of daily living and/or instrumental activities of daily living;
- 2.5.3.2.1.2.9. Transitional and/or discharge plans;
- 2.5.3.2.1.2.10. Beneficiary's strength and abilities;

- 2.5.3.2.1.2.11. Beneficiary's goals, preferences, and desired level of involvement in the care planning process;
- 2.5.3.2.1.2.12. Willingness/readiness to change behaviors;
- 2.5.3.2.1.2.13. Caregiver status and capabilities;
- 2.5.3.2.1.2.14. Informal and formal supports;
- 2.5.3.2.1.2.15. Health literacy;
- 2.5.3.2.1.2.16. Health, welfare, and safety;
- 2.5.3.2.1.2.17. History, suspicion, or detection of abuse, violence, or trauma;
- 2.5.3.2.1.2.18. Environmental/residential Assessment;
- 2.5.3.2.1.2.19. Spiritual;
- 2.5.3.2.1.2.20. Cultural;
- 2.5.3.2.1.2.21. Financial;
- 2.5.3.2.1.2.22. Special communication needs;
- 2.5.3.2.1.2.23. Transportation capabilities;
- 2.5.3.2.1.2.24. Advance care planning; and
- 2.5.3.2.1.2.25. Wellness and prevention activities.

2.5.3.2.1.3. Relevant and recent data sources will be used to formulate the Assessment, examples of data sources include the following: the Beneficiary, Providers (including PCPs and specialists), medical records, Claims data, caregivers, family, and Trans-Disciplinary Care Team members. The ICDS Plan must put forth a good faith effort to establish relationships with the Beneficiary's PCP and use clinical data collected from the Provider in order to prevent duplication of Assessment efforts and to assist with identification of priorities for the Beneficiary. The ICDS Plan must describe how

Assessment data will be stored and made available to members of the care team in order to coordinate care.

2.5.3.2.1.4. Results of the Assessment will be used to confirm the Beneficiary's assignment to the risk stratification level and to develop the ICP.

2.5.3.2.1.5. The ICDS Plan must document the process that will be used to facilitate the completion of the Assessments including the timeframe for completing Assessments. Assessments must be completed as expeditiously as the Beneficiary's needs warrant, but no later than seventy-five (75) days from the Enrollment effective date. The ICDS Plan must include a process for how Beneficiaries who cannot be reached or who refused Assessments will be handled by the ICDS Plan.

2.5.3.2.1.5.1. At a minimum, the ICDS Plan must attempt to reach the Beneficiary at least three (3) times during the first seventy-five (75) days of Enrollment.

2.5.3.2.1.5.2. A Beneficiary may choose to decline an Assessment. Should that occur, the ICDS Plan will not continue to contact the Beneficiary for an Assessment unless a new Assessment is needed as indicated in Section 2.5.3.2.1.6 of this Contract or a significant change event occurs as indicated in Section 2.5.3.2.1.8.1 of this Contract.

2.5.3.2.1.6. A reassessment must be completed within three hundred sixty-five (365) days of the last Assessment completion date. For any Beneficiary who declined the Assessment, the ICDS Plan must reengage with the Beneficiary to attempt to complete an Assessment within three hundred sixty-five (365) days of the last refusal date.

2.5.3.2.1.7. Initial Assessments and the annual reassessments must be completed at the location of the Beneficiary's primary place of service (i.e., home or institutional facility) for Beneficiaries who are assigned to the intensive and high risk levels and for any Beneficiaries receiving HCBS waiver services. Initial Assessments and annual reassessments may be completed by telephone, web, or mail, as appropriate, for Beneficiaries assigned to the low, medium, or monitoring levels unless an in-person Assessment is requested by the Beneficiary, caregiver, or Provider.

2.5.3.2.1.8. Updates to the Assessment, as described below, will be completed in person or by telephone. The ICDS Plan must consider why the Assessment needs to be updated, the Beneficiary's needs and functional health status, and the preference of the Beneficiary when determining the mode by which the Assessment will be completed.

2.5.3.2.1.8.1. Assessments must be updated when there is a change in the Beneficiary's health status or needs, change in diagnosis, change in caregiver status, change in functional status, a significant health care event (e.g., hospital admission or transition between care settings), or as requested by the Beneficiary, his/her caregiver, or his/her Provider.

2.5.3.2.1.8.2. At a minimum for Beneficiaries receiving HCBS waiver services, upon discovery of a potential significant change event, telephone contact between the Care Manager or the Waiver Service Coordinator must occur by the end of the next full calendar day. If it is determined through this telephone

contact that a significant change occurred, a face to face visit must take place by the end of third day full day following discovery.

2.5.3.2.1.9. Updates to the Assessment must be reflected in the ICP, including the waiver service plan.

2.5.3.2.1.10. Assessments will be completed by appropriately qualified health professionals who possess an appropriate professional scope of practice, licensure, and/or credentials, and are appropriate for responding to or managing the Beneficiary's needs.

2.5.3.2.2. Individualized Care Plan:

2.5.3.2.2.1. The ICDS Plan must develop and implement a person-centered care planning process that yields an integrated ICP for the Beneficiary, is based on the recent Assessment and includes the following elements:

2.5.3.2.2.1.1. Prioritized measurable goals, interventions, and anticipated outcomes with completion timeframes that address the Beneficiary's physical, behavioral, social and LTSS needs along with responsible parties;

2.5.3.2.2.1.2. Integration of the waiver service plan that is developed and implemented in accordance with Section 2.5.3.3.5 of this Contract;

2.5.3.2.2.1.3. Identifies and prioritizes the Beneficiary's concerns, strengths, and preferences for care (e.g., cultural considerations).

2.5.3.2.2.1.4. A process to develop, update, and review the ICP (i.e., initial and revised) with the Beneficiary, family/caregivers, the PCP,

specialists and members of the Trans-Disciplinary Care Team, as appropriate. Initial ICPs must be developed within fifteen (15) calendar days of the initial Assessment completion date.

2.5.3.2.2.1.5. Implementation and ongoing monitoring of the ICP that includes documentation of the following:

2.5.3.2.2.1.5.1. Assessment of the Beneficiary's progress in achieving goals and outcomes established in the ICP;

2.5.3.2.2.1.5.2. Coordination of care and services (e.g., scheduling appointments, tracking and follow up of referrals, interacting with Providers to facilitate Prior Authorization requests) for the Beneficiary with the Waiver Service Coordinator,

PCP,
specialist(s),
and other
service
Providers/coo
rdinators, as
appropriate;

2.5.3.2.2.1.5.4. Revision to the ICP based on information discovered during ongoing monitoring must occur as expeditiously as the Beneficiary's needs warrant but no later

2.5.3.3.1. Care Manager and the Trans-Disciplinary Care Team

2.5.3.3.1.1. The ICDS Plan must assign a Care Manager who will be the accountable point of contact for the Beneficiary; ensure the integration of the Beneficiary's medical, behavioral health, substance use and LTSS needs; and will lead the Trans-Disciplinary Care Team. Responsibilities for the Care Manager will include but not be limited to the following: delineating roles and responsibilities for members of the Trans-Disciplinary Care Team; directing and delegating Care Management activities; implementing, monitoring, and updating the ICP; exchanging information between Trans-Disciplinary Care Team members; and facilitating Trans-Disciplinary Care Team meetings. The Care Manager must have the appropriate experience and qualifications based upon the Beneficiary's assigned risk level and needs. The ICDS Plan must have a process to ensure that the Beneficiary and/or the authorized representative are able to request a change in the Care Manager.

2.5.3.3.1.2. The ICDS Plan will formulate a Trans-Disciplinary Care Team for each Beneficiary. Each Beneficiary shall have access to, and input to the development of, the Trans-Disciplinary Care Team. Composition of the Trans-Disciplinary Care Team will vary based on the needs and preferences of the Beneficiary but will minimally include the Beneficiary, the PCP, the Care Manager, the Waiver Service Coordinator as appropriate, specialists, family members, caregivers, and any other individuals requested by the Beneficiary. Whereas the Waiver Service Coordinator is not also the Care Manager, the Waiver Service Coordinator will also be a member of the Trans-Disciplinary Care Team. The Trans-Disciplinary Care Team will participate in and support key Care Management activities that are outlined in Section 2.5.3 of this Contract, such as completion of the Assessment and development, implementation and updates to the ICP at the direction of the Care Manager. All members of the Trans-Disciplinary Care Team are responsible for ensuring that care is person-centered, built on the Beneficiary's specific preferences and needs, and delivered with transparency, individualization, respect, linguistic and cultural competence, and dignity.

2.5.3.3.1.3. Staffing Ratios

2.5.3.3.1.3.1. The ICDS Plan must maintain a staffing ratio defined as one full time equivalent (FTE) per the number of Beneficiaries specified below for each risk stratification level:

2.5.3.3.1.3.1.1. 1)

Intensive:

1:25 - 1:50

2.5.3.3.1.3.1.2. 2) High:

1:51 - 1:75

2.5.3.3.1.3.1.3. 3)

Medium:

1:76 - 1:100

2.5.3.3.1.3.1.4. 4) Low:

1:101 - 1:250

2.5.3.3.1.3.1.5. 5)

Monitoring:

1:251 - 1:350

2.5.3.3.1.3.2. The FTE count shall only include staff and their functions that are directly linked to the Care Management activities performed for a Beneficiary in that stratification level. At a minimum, the ICDS Plan must ensure that the FTE count for each stratification level only includes: 1) a person's time who directly interacted with a Beneficiary or who directly participated in the Beneficiary's ICP (e.g., discharge planning, collaborative case conference); and 2) vendors or community partners for which the ICDS Plan has an ODM-approved delegated relationship.

2.5.3.3.1.3.3. The ICDS Plan must submit the staffing model and FTE counts with the submission of the Care Management program structure.

2.5.3.3.1.4. The ICDS Plan is responsible for ensuring that staff who are completing Care Management functions are operating within their professional scope of practice, are appropriate for responding to the Beneficiary's needs, and follow the state's licensure/credentialing requirements.

2.5.3.3.2. Care Management Contact Schedule

2.5.3.3.2.1. The ICDS Plan must establish a contact schedule that is based on the Beneficiary's needs and facilitates ongoing communication with the Beneficiary. At a minimum, the ICDS Plan must adhere to the following contact schedules as specified below for the intensive, high, and medium stratification levels. The ICDS Plan must establish the minimum contact schedule for the low and monitoring stratification levels which will be approved by ODM.

Risk stratification level	Minimum contact schedule
Intensive	One in person visit every two months. Maximum of 60 days between visits. Telephonic contact as needed.
High	One in person visit every three months. Maximum of 90 days between visits. Telephonic contact as needed.
Medium	One in person visit every six months. Maximum of 180 days between visits. Telephonic contact as needed.

2.5.3.3.2.2. For Beneficiaries who are newly enrolled in an HCBS waiver (i.e., after the effective date of Enrollment with the ICDS Plan), the minimum contact schedule for the first six (6) months of HCBS waiver Enrollment must be no less frequent than the contact schedule established for the high risk stratification level.

2.5.3.3.2.3. At least one of the in-person visits within the first six (6) months of the Demonstration and then annually thereafter must be conducted in the location of the Beneficiary's primary place of service (i.e., residence or institutional facility). Additional in-person visits should occur at a location that is agreed upon by the Beneficiary and the ICDS Plan.

2.5.3.3.2.4. The activity conducted during the in-person visit contact must be linked to the goals, interventions, and outcomes identified in the ICP

and must be directed by the Care Manager. In person visits may be conducted by any member of the Trans-Disciplinary Care Team.

2.5.3.3.2.5. The outcome of the in-person visit should be documented, reported back to the ICDS Plan Care Manager, and integrated into the ICP. Upon request, the ICDS Plan must provide a copy of the contact schedule to the Beneficiary.

2.5.3.3.2.6. Contact schedules, and any exceptions to the contact schedule, must be documented in the Beneficiary's Care Management record.

2.5.3.3.3. Care Management Solutions: The ICDS Plan must have in place the following solutions in order to assist with Care Management/Coordination and Provider/Beneficiary Communication.

2.5.3.3.3.1. Centralized Beneficiary Record. The ICDS Plan must use information technology systems and processes to integrate the following data elements, at a minimum, into a single, centralized, comprehensive record for each Beneficiary: demographic data; Enrollment data; Care Management data, including Assessment results, the ICP, waiver service plan, case notes, Care Manager assignment, etc.; Claims and pharmacy data; and authorizations and referrals. The ICDS Plan must ensure that the centralized beneficiary record is current, available and accessible twenty-four (24) hours a day, seven (7) days a week in entirety and/or as a summary of key clinical/Care Management data to members of the Trans-Disciplinary Care Team or other authorized personnel in order to facilitate Care Management needs, respond to urgent/emergent needs, and to ensure effective, safe service delivery. In the event that the ICDS Plan is unable to implement the information technology systems and processes necessary to meet this requirement prior to the Contract Operational Start Date, then ODM and CMS may temporarily waive this

requirement to allow the ICDS Plan additional time to bring itself into compliance. The decision to grant additional time to the ICDS Plan, and the duration of such time, will be determined by, and at the discretion of, ODM and CMS. In all cases, the ICDS Plan is expected to make all reasonable efforts to achieve compliance with this requirement as timely as possible.

2.5.3.3.3.2. In order to support point-of-care clinical decision making, the ICDS Plan is expected to participate in the statewide health information exchange when established.

2.5.3.3.3.3. Care Management System. The ICDS Plan must have a Care Management system that captures, at a minimum, for each Beneficiary the results of the Assessment, the ICP content, including goals, interventions, outcomes and completion dates, and Beneficiary/provider contact notes. This system must be linked to other databases, systems, and the centralized beneficiary record that the ICDS Plan uses to maintain information about the Beneficiary. The goal is to integrate the Beneficiary information in a meaningful way to facilitate Care Management needs. The system(s) must have the capability to share Care Management information with the Beneficiary and any member of the Trans-Disciplinary Care Team, as appropriate.

2.5.3.3.3.4. Care Management Support Line. The ICDS Plan must accommodate in bound communication by Beneficiaries. To support Care Management, the ICDS Plan shall operate a twenty-four (24) hour, seven (7) days a week, toll free call in system available nationwide that is staffed by appropriately trained and qualified health professionals who are able to access the Beneficiary's records, assess the Beneficiary's issues, and provide an appropriate course of action (i.e., medical advice, direct the Beneficiary to an appropriate care setting, referral

to a member of the Trans-Disciplinary Care Team etc.). The ICDS Plan must ensure that the staff person facilitating a resolution to the identified Care Management need(s) has access to, and is familiar with, the Beneficiary's ICP. Assurance of the Beneficiary's health, welfare, and safety must be considered when determining the resolution and completion timeframe, including the provision of in-person support if warranted.

2.5.3.3.4. The ICDS Plan must apply evidence based guidelines or best practices when developing and implementing ICP goals and interventions.

2.5.3.3.5. The ICDS Care Management model will require the ICDS Plan to request LOC determinations from the local Areas Agencies of Aging (AAAs), interface with HOME Choice, and manage HCBS waiver services.

2.5.3.3.5.1. Level of Care Request: The ICDS Plan is required to request LOC determinations from their local Area Agencies on Aging for Enrollments onto the ICDS HCBS waiver and event-based and annual reassessments for existing waiver Beneficiaries. The ICDS Plan must be familiar with all rules related to nursing facility LOC and the Preadmission Screening and Resident Review (PASRR) processes; the requirement to request LOC to the AAAs for nursing facility admissions does not apply.

2.5.3.3.5.2. Interface with the HOME Choice Program: In order to access the HOME Choice program, Ohio's nursing home transition program, for a Beneficiary who resides in a nursing facility and desires to relocate to a community setting, the ICDS Plan can refer, as appropriate and agreed to by the Beneficiary, to the HOME Choice Program. Beneficiaries can access HOME Choice services as long as they are not duplicative of services provided by the ICDS Plan as part of Care Management. If the HOME Choice program option

is pursued by the ICDS Plan for a Beneficiary, the ICDS Plan must perform required activities to prepare and support the successful transition, such as completion of forms and collaboration with the HOME Choice transition coordinator.

2.5.3.3.5.3. HCBS Waiver Service Coordination and Operational Requirements: Waiver Service Coordination shall be considered a key component of the ICDS Plan's comprehensive Care Management model. The ICDS Plan will use a Waiver Service Coordinator who will be responsible for developing the waiver service plan with the Beneficiary; sharing the waiver service plan with the team for review and approval; coordinating the approved waiver services; assuring the Beneficiary's health, welfare, and adequacy of service delivery; and integrating the waiver service plan into the ICP.

2.5.3.3.5.3.1. The ICDS Plan must ensure the following for Beneficiaries receiving HCBS waiver services:

2.5.3.3.5.3.1.1. A Beneficiary who is enrolled in the HCBS waiver will be afforded the opportunity to select a Waiver Service Coordinator to facilitate and manage the delivery of waiver services authorized in

the waiver
service plan.
The ICDS

2.5.3.3.5.3.1.2. A Beneficiary who is enrolled in the HCBS waiver will receive a minimum of one HCBS service monthly.

2.5.3.3.5.3.1.3. The ICDS Plan will be required to attest that Care Managers and Waiver Service Coordinators are not: related by blood or marriage to the Beneficiary or any paid caregiver; financially responsible for the Beneficiary; empowered to make financial or health related decisions on

behalf of a Beneficiary; and Providers of any HCBS services.

2.5.3.3.5.3.1.4. The ICDS Plan must complete the ongoing Assessment of LTSS for a Beneficiary currently receiving waiver services and the initial LTSS for a Beneficiary who presents a need (i.e., community well). Based on the LTSS Assessment and other data collected as a result of the Comprehensive Assessment process, the Waiver Service Coordinator will develop a waiver service plan as described

below with the Beneficiary that identifies the HCBS (amount, duration, and scope) that will promote the Beneficiary's ability to live independently and avoid residing in an institutional setting.

2.5.3.3.5.3.1.5. The ICDS Plan must allow a Beneficiary to exercise choice and control over the provision of waiver services they receive as determined during the waiver service planning process. The ICDS Plan must also honor a Beneficiary's choice and preference for

which individuals participate in the waiver service planning process. The Beneficiary will also be allowed to exercise authority over the selection and direction of certain waiver services, including the opportunity to pursue self-direction of certain waiver services as described below. Services and supports must be planned and implemented in accordance with each Beneficiary's needs and expressed preferences.

2.5.3.3.5.3.1.6. Self-Direction:
The ICDS

Plan is responsible for the promotion of self-direction to Beneficiaries enrolled on the HCBS waiver and in accordance with ODM's requirements.

Required activities include but are not limited to: participation of all Care Managers and Waiver Service Coordinators in initial and on-going training about self-direction; inclusion of information about self-direction in the waiver handbook; development and distribution of a self-direction handbook for those Beneficiaries who express an interest; provision of orientation activities to waiver Beneficiaries pursuing self-direction opportunities; and contracting with the state-wide Financial Management Services (FMS) vendor for the provision of duties related to employer authority.

2.5.3.3.5.3.1.6.2. The ICDS Plan will be required to reimburse the FMS for administrative duties in support of self-directed services at the rate established by ODM and for self-directed services. The FMS vendor will reimburse the Provider directly for services.

2.5.3.3.5.3.2. Waiver Service Plan. The ICDS Plan must perform the following duties to support waiver service plan development, implementation, and monitoring which will be conducted by the Waiver Service Coordinator in collaboration with the Trans-Disciplinary Care Team:

2.5.3.3.5.3.2.1. The ICDS Plan must review and approve of the waiver service plan in accordance with coverage and authorization service requirements as established at 42 C.F.R. § 438.210. deliver them.
The back-up
plan will

ICDS Plan
must ensure
that the
waiver
service plan is
updated with

current and relevant information. The waiver service plan must be updated as appropriate based on the Beneficiary's assessed needs or when the ICDS Plan becomes aware of any relevant information that should be included in the plan (i.e., change in back up plans). Any updates to the waiver service plan must be provided to the Care Manager to ensure that applicable updates are also made to the ICP. Updates to the waiver service plan should occur

choose a
remediation
method to
resolve
identified
issues,

including selection of alternate Providers, negotiation with current Providers for service modifications, adding (waiver and non-waiver) services and changes in the level of involvement of the Beneficiary's informal support system. The ICDS Plan must update the waiver service plan to describe the intervention developed to address the issue, time frame for implementation, responsible parties, and timeframes to evaluate the effectiveness of the

2.6. Provider Network

2.6.1. General

2.6.1.1. The ICDS Plan must demonstrate as required by CMS and ODM that it has an adequate Provider Network sufficient in number, mix, and geographic distribution, to ensure adequate access to medical, behavioral health, pharmacy, and LTSS Providers that are appropriate for and proficient in addressing the needs of the enrolled population, including physical, communication, and geographic access.

2.6.1.2. The ICDS Plan must maintain a Provider Network sufficient to provide all Beneficiaries with access to the full range of Covered Services, including behavioral health services, other specialty services, and all other services required in 42 C.F.R. §§ 422.112, 423.120, and 438.206 and under this Contract (see Covered Services in Appendix A of this Contract). The ICDS Plan must notify the CMT of any significant Provider Network changes in accordance with requirements established in OAC 5160-58-01.1 and 5160-26-05, with the goal of providing notice to the CMT at least sixty (60) days prior to the effective date of any such change. In addition, the ICDS Plan must notify the CMT when there are other significant changes in the ICS Plan’s operations that would affect capacity and services, including changes in services, benefits, geographic service area or payments, or Enrollment of a new population.

2.6.1.3. The ICDS Plan shall establish, maintain and monitor their provider network, sufficient to provide adequate access to all Covered Services under the Contract including the appropriate range of preventive, primary care and specialty service, taking into consideration:

2.6.1.3.1. The anticipated number of Beneficiaries;

 - 2.6.1.3.5. The geographic location of Providers and Beneficiaries, taking into account distance, travel time, the means of transportation and whether the location provides physical access for Beneficiaries with disabilities.
- 2.6.1.4. The CMT will monitor the ICDS Plan's Beneficiaries' access to services through survey, utilization, and complaints data to assess ICDS Plan networks and require corrective action as necessary. The CMT will monitor access to care and the prevalence of unmet needs indicated through Beneficiary Assessments and, based on findings may require that the ICDS Plans initiate further network expansion over the course of the Contract.

- 2.10.2.1.2. A Beneficiary or authorized representative can file a Grievance. An authorized representative must have the Beneficiary's written consent to file a Grievance on the Beneficiary's behalf.
- 2.10.2.1.3. The ICDS Plan must acknowledge the receipt of each Grievance to the individual filing the Grievance. Oral acknowledgment is acceptable; however, if the Grievance is filed in writing, written acknowledgment must be made within three (3) working days of receipt of the Grievance.
- 2.10.2.1.4. In compliance with 42 C.F.R. § 438.406(b), the ICDS Plan must ensure that decision makers on Grievances were not involved in previous levels of review or decision making, nor are a subordinate of any such individual, and are health care professionals with clinical expertise in treating the Beneficiary's condition for either of the following:
 - 2.10.2.1.4.1. A Grievance regarding denial of expedited resolutions of an Appeal; or
 - 2.10.2.1.4.2. Any Grievance involving clinical issues.
- 2.10.2.1.5. The ICDS Plan must review and resolve all Grievances as expeditiously as the Beneficiary's health condition requires. Grievance resolutions including Beneficiary notification must meet the following timeframes:
 - 2.10.2.1.5.1. Within twenty-four (24) hours if Grievance must be expedited pursuant to 42 C.F.R. § 422.564(f); or

 - 2.10.2.1.5.2.1. The ICDS Plan may extend the timeframe for processing a Grievance by up to fourteen (14) calendar days if the Beneficiary requests the extension or if the ICDS Plan first requests the extension from ODM prior to the

expiration of the resolution timeframe and shows there is a need for additional information and how the delay is in the interest of the Beneficiary.

2.10.2.1.5.2.2. If the ICDS Plan extends the timeframe for a Grievance and it is not at the Beneficiary's request, the ICDS Plan must immediately notify the Beneficiary in writing and make reasonable efforts to give the Beneficiary prompt oral notice of the delay.

2.10.2.1.6. At a minimum, the ICDS Plan must provide oral notification to the Beneficiary of a Grievance resolution. However, if the ICDS Plan is unable to speak directly with the Beneficiary and/or the resolution includes information that must be confirmed in writing, the resolution must be provided in writing simultaneously with the ICDS Plan's decision.

2.10.2.1.7. Written notification of Grievance resolution must meet the requirements of 42 C.F.R. § 438.408(d)(1) and:

2.10.3. Beneficiary Appeals

2.10.3.1. General

2.10.3.1.1. Beneficiaries will continue to have full access to the Medicare and Medicaid Appeals frameworks for benefit Appeals. ICDS Plan must provide notice of Appeal rights in accordance with timeframes and content specified by CMS and ODM. The ICDS Plan must acknowledge the receipt of each Appeal to the individual filing the Appeal.

2.10.3.1.2. The ICDS Plan shall utilize and all Beneficiaries may access the existing Part D Appeals Process. Consistent with existing rules, Part D Appeals will be automatically forwarded to the CMS Medicare independent review entity (IRE) if the ICDS Plan misses the applicable adjudication timeframe. The CMS IRE is contracted by CMS. The ICDS Plan must maintain written records of all Appeal activities, and notify CMS and ODM of all internal Appeals.

2.10.3.1.3. The Appeal record must include at a minimum the name of the covered person for whom the Appeal was filed; a general description of the reason for the Appeal; the date received; the date of each review or, if applicable, review meeting; and resolution information for each level of Appeal including date of resolution. The Appeal record

must be accessible to CMS and ODM upon request.

2.10.3.1.4. A Beneficiary, or a Provider acting on behalf of a Beneficiary, or an authorized representative, may Appeal the ICDS Plan's decision to deny, terminate, suspend, or reduce services.

2.10.3.2. Integrated/Unified Non-Part D Appeals Process Overview:

2.10.3.2.1. Notice of Action or Notice of Adverse Benefit Determination – In accordance with 42 C.F.R. §§ 431.211, 431.213, 438.404, and 422.568, the ICDS Plan must give the Beneficiary written Notice of any Adverse Benefit Determination. For termination, suspension, or reduction of previously authorized Medicaid-covered services, such Notice shall be provided at least (fifteen) 15 days in advance of the date of the action, in accordance with 42 C.F.R. § 438.404. Denials of any Medicare services will be required to comply with time frames at 42 C.F.R Part 422, Subpart M.

2.10.3.2.2. The ICDS Plan Appeal procedures must: (i) be submitted during readiness review and when requested, to the CMT in writing for prior approval by CMS and the ODM; (ii) provide for resolution with the timeframes specified herein; and (iii) assure the participation of individuals with authority to require corrective action. Appeals procedures must be consistent with 42 C.F.R. § 422.560 et seq. and 42 C.F.R. § 438.400 et seq. The ICDS Plan must have a committee in place for reviewing Appeals made by Beneficiaries. The ICDS Plan shall review its Appeal procedures at least annually for the purpose of amending such procedures when necessary. The ICDS Plan shall amend its procedures only upon receiving prior approval from the ODM.

2.10.3.3. Medicare A & B Service Appeals

2.10.3.3.1. Process: All initial Appeal requests will be filed with the ICDS Plan in accordance with

Applicable Laws and regulations (Level One Appeal). If the ICDS Plan does not decide fully in the Beneficiary's favor within the relevant timeframe, the ICDS Plan shall automatically forward the case file regarding Medicare services to the Independent Review Entity (IRE) for a new and impartial review. If the Beneficiary disagrees with the IRE's decision, further levels of Appeal may be available, including a hearing before an Administrative Law Judge, and judicial review. The ICDS Plan must comply with any requests for information or participation from such further Appeal entities.

2.10.3.3.2. Timeframes: A Beneficiary may file an oral or written Appeal with the ICDS Plan within sixty (60) calendar days following the date of the Notice of Adverse Benefit Determination that generates such Appeal.

2.10.3.3.2.1. Unless a Beneficiary requests an expedited Appeal, for Level One Appeals filed with the ICDS Plan, the ICDS Plan shall render its decision on the Appeal within fifteen (15) calendar days after submission of the Appeal. The ICDS Plan may extend this timeframe for up to fourteen (14) calendar days if the Beneficiary requests an extension. If a Beneficiary requests an expedited Appeal, the ICDS Plan shall notify the Beneficiary, within twenty-four (24) hours after the submission of the Appeal, of all information from the Beneficiary that the ICDS Plan requires to evaluate the expedited Appeal. The ICDS Plan shall render a decision on an expedited Appeal within seventy-two (72) hours of receipt of the Appeal. The ICDS plan may extend this timeframe for up to fourteen (14) days if it determines that such an extension is in the Beneficiary's interest (for example, to allow collection of required information).

2.10.3.3.2.2. If the Level One Appeal is not fully in favor of the Beneficiary, the ICDS Plan must auto-

forward the Appeal to the IRE. For standard Appeals, the IRE will send the Beneficiary and the ICDS Plan a letter with its decision within thirty (30) calendar days after it receives the case from the ICDS Plan, or at the end of up to a fourteen (14) calendar day extension, and a payment decision within sixty (60) calendar days. For expedited Appeals, the IRE will send the Beneficiary and the ICDS Plan a letter with its decision within seventy-two (72) hours after it receives the case from the ICDS Plan or at the end of up to a fourteen (14) calendar day extension.

2.10.3.3.2.3. If the IRE decides in the Beneficiary's favor and reverses the ICDS Plan's decision, the ICDS Plan must authorize the service under dispute as expeditiously as the Beneficiary's health condition requires, but no later than seventy-two (72) hours from the date the ICDS Plan receives the Notice reversing the decision. Generally, the ICDS Plan must ensure that the services under dispute are provided as expeditiously as the Beneficiary's health condition requires, but no later than fourteen (14) calendar days from the date it receives Notice that the IRE reversed the determination.

2.10.3.3.3. Continuation of Benefits Pending an Appeal: The ICDS Plan must provide continuing benefits for all previously approved non-Part D benefits that are being terminated or modified pending the ICDS Plan's internal Appeal process, subject to the requirements as indicated in Section 2.10.3.4.4 of this Contract. This means that such benefits, when requested by the Beneficiary, will continue to be provided by Providers to Beneficiaries and that the ICDS Plans must continue to pay Providers for providing such previously authorized services or benefits pending an internal Appeal.

2.10.3.4. Medicaid Appeals

2.10.3.4.1. Process: An Appeal may be submitted orally or in writing. The ICDS Plan may not require the

Beneficiary to follow an oral Appeal with a written, signed Appeal. The ICDS plan shall, however, confirm a non-expedited oral Appeal in writing.

2.10.3.4.1.1. Initial Appeals for Medicaid service denials, reductions, suspensions or terminations will be made to the ICDS Plan.

2.10.3.4.1.2. Appeal decisions for Medicaid services overruled by the ICDS Plan will not be auto-forwarded to the Bureau of State Hearings, but may be appealed by a Beneficiary to the Bureau.

2.10.3.4.2. The ICDS Plan must:

2.10.3.4.2.1. Ensure that oral inquiries seeking to Appeal an action are treated as Appeals and confirm those inquiries in writing, unless the Beneficiary or the provider requests expedited resolution;

2.10.3.4.2.2. Provide a reasonable opportunity to present evidence, and allegations of fact or law, in person as well as in writing;

2.10.3.4.2.3. Allow the Beneficiary and the Beneficiary's representative the opportunity, at a reasonable time, before and during the Appeals process, to examine the Beneficiary's case file, including medical records, and any other documents and records, free of charge and sufficiently in advance of the resolution timeframes for Appeals;

2.10.3.4.2.4. Consider the Beneficiary, his representative, or the estate representative of a deceased Beneficiary as parties to the appeal;

2.10.3.4.2.5. In compliance with 42 C.F.R. § 438.406(b), ensure that decision makers on Appeals were not involved in previous levels of review or decision making, nor are a subordinate of any such individual, and are health care professionals with clinical expertise in treating the Beneficiary's condition for either of the following:

2.10.3.4.2.5.1. A denial Appeal based on lack of medical necessity; or

2.10.3.4.2.5.2. Any Appeal involving clinical issues.

2.10.3.4.3. Time frames- Time frames for filing Appeal related to benefits:

2.10.3.4.3.1. Beneficiaries or their authorized representatives will have sixty calendar (60) days from the date that the Notice of Action or Adverse Benefit Determination is mailed to file an Appeal related to a denial, or reduction, suspension or termination of authorized Medicaid benefits covered by the ICDS Plan.

2.10.3.4.3.2. The ICDS Plan shall render its decision on the Appeal within fifteen (15) calendar days after submission of the Appeal. The ICDS Plan may extend this timeframe for up to fourteen (14) calendar days if the Beneficiary requests an extension, or if the ICDS Plan demonstrates to the satisfaction of the ODM that there is a need for additional information, the ICDS plan demonstrates that the delay is in the Beneficiary's interest, and the Plan provides the Beneficiary with written notice of the reason for the delay. The ICDS plan must inform the Beneficiary of the right to file a Grievance if he or she disagrees with the extension.

2.10.3.4.3.3. If a Beneficiary requests an expedited Appeal pursuant to 42 C.F.R. § 438.410, the ICDS Plan shall inform the Beneficiary of the limited time available for the Beneficiary to present evidence, and allegations of fact or law, in person as well as in writing and make a determination in accordance with OAC Rule 5160-58-08.4. The ICDS Plan shall render a decision on an expedited Appeal within seventy-two (72) hours after receipt of the required information; the ICDS plan shall provide written notice and shall make reasonable efforts to provide oral notice. If the ICDS Plan denies the expedited Appeal, the ICDS Plan shall ensure that it complies

with the procedures in 42 C.F.R. § 438.410(c). The ICDS Plan may extend this timeframe for up to fourteen (14) calendar days if the Beneficiary requests an extension, or if the ICDS Plan demonstrates to the satisfaction of ODM that there is a need for additional information and the delay is in the Beneficiary's interest, and the ICDS Plan provides the Beneficiary with written notice of the reason for the delay. The ICDS plan must inform the Beneficiary of the right to file a Grievance if he or she disagrees with the extension. The ICDS Plan must ensure that no punitive action is taken against a Provider that either requests an expedited Appeal or that supports a Beneficiary's expedited Appeal.

2.10.3.4.3.4. All initial Appeal requests must be made to the ICDS plan within sixty (60) days of the ICDS Plan's Notice of Action. A Beneficiary may Appeal to the Bureau of State Hearings only after an adverse decision by the ICDS plan. Such an Appeal must be filed with the Bureau of State Hearings within one hundred twenty (120) days of the date of the ICDS plan's adverse decision.

2.10.3.4.3.4.1. Parties to the external Appeal include the Beneficiary, his/her representative, or the representative of the Beneficiary's estate, and the ICDS Plan.

2.10.3.4.3.4.2. Consistent with 42 C.F.R. Part 431 Subpart E, the Bureau of State Hearings, within the Ohio Department of Job and Family Services, will resolve Medicaid state hearings as expeditiously as the Beneficiary's condition requires, within thirty (30) calendar days of request and in accord with OAC Rule 5101:6-7-01.

2.10.3.4.3.5. Consistent with OAC Rule 5101:6-7-01, the Bureau of State Hearings will resolve within three

(3) working days from the date of Bureau's receipt of the request the following: hearing requests related to a denial of services that meet the criteria for an expedited Appeals process but which the ICDS plan did not resolve using expedited Appeals timeframes, or were resolved wholly or partially adversely to the Beneficiary using the ICDS plan's expedited Appeals timeframes.

2.10.3.4.3.6. ICDS Plan will toll applicable time frames for Medicare service Appeals that have been inappropriately made to the Bureau of State Hearings within the State instead of the ICDS Plan. The Bureau of State Hearings will forward misdirected Appeals to the ICDS Plan for a determination.

2.10.3.4.4. The ICDS Plan shall provide the Beneficiary with written notice of the Appeal resolution pursuant to 42 C.F.R. § 438.408, and shall include, but not be limited to, the following information:

2.10.3.4.4.1. The decision reached by the ICDS Plan;

2.10.3.4.4.2. The date of decision;

2.10.3.4.4.3. For Appeals not resolved wholly in favor of the Beneficiary:

2.10.3.4.4.3.1. The right to request an Appeal with the Bureau of State Hearings and how to do so; and

2.10.3.4.4.3.2. The right to request to receive benefits while the hearing is pending and how to make the request.

2.10.3.4.5. Continuation of Medicaid Benefits Pending an Appeal

2.10.3.4.5.1. As provided in OAC rule 5160-58-08.4, if a Beneficiary files an Appeal within fifteen (15) calendar days after the date of a notice of Adverse Benefit Determination from the ICDS Plan or the effective date of the proposed action and the

Beneficiary requests that the disputed Covered Services be continued pending the Appeal, continuation of all previously authorized non-part D benefits will be required to be provided pending internal Appeals. As provided in 42 C.F.R. §§ 431.211, 431.230, and 438.420, continuations of covered Medicaid services will continue to be required when a hearing request is made to the Bureau of State Hearings within fifteen (15) calendar days of the date the notice (of adverse resolution of Appeal) is mailed, or the effective date of the proposed action, whichever is later. Continuations of covered Medicaid services will continue to be required when a hearing request is made to the Bureau of State Hearings within fifteen (15) calendar days of the date the notice of adverse resolution of Appeal is mailed or the effective date of the proposed action, whichever is later. This means that benefits previously authorized by the ICDS Plan and for which the authorization period has not expired and for which the Beneficiary timely requests continuation, will continue to be provided by Providers to Beneficiaries, and that the ICDS Plan must continue to pay Providers for providing services pending an internal ICDS Plan Appeal or state hearing request. Payments will not be recouped based on the outcome of the Appeal for services covered during pending Appeals.

2.10.3.5. Medicare A & B/Medicaid Appeals (Overlap Services and Items)

2.10.3.5.1. Process: For services and items in which Medicare and Medicaid overlap (including Home Health, Durable Medical Equipment and skilled therapies), all initial Appeal requests will be filed with the ICDS Plan in accordance with Applicable Laws and regulations.

2.10.3.5.2. Timelines: A Beneficiary may file an oral or written Appeal with the ICDS Plan within sixty (60) calendar days following the mailing date of the notice of Adverse Benefit Determination.

- 2.10.3.5.2.1. For Appeals filed with the ICDS Plan, if the Beneficiary does not request an expedited Appeal, the ICDS Plan shall render its decision on the Appeal within fifteen (15) Calendar Days after submission of the Appeal. The ICDS Plan may extend this timeframe for up to fourteen (14) calendar days if the Beneficiary requests an extension, or if the ICDS Plan demonstrates to the satisfaction of ODM that there is a need for additional information and the delay is in the Beneficiary's interest. The ICDS plan must inform the Beneficiary of the right to file a Grievance if he or she disagrees with the extension.
- 2.10.3.5.2.2. If a Beneficiary requests an expedited Appeal, the ICDS Plan shall notify the Beneficiary, within twenty-four (24) hours after the submission of the Appeal, of all information from the Beneficiary that the ICDS Plan requires to evaluate the expedited Appeal. The ICDS Plan shall render a decision on an expedited Appeal within seventy-two (72) hours of receipt of the Appeal. The ICDS plan may extend this timeframe for up to fourteen (14) days if it determines that such an extension is in the Beneficiary's interest (for example, to allow collection of required information). The ICDS plan must inform the Beneficiary of the right to file a Grievance if he or she disagrees with the extension.
- 2.10.3.5.2.3. If the Appeal is not fully in favor of the Beneficiary, the ICDS Plan must auto-forward the Appeal to the IRE. For standard Appeals, the IRE will send the Beneficiary and the ICDS Plan a letter with its decision within thirty (30) calendar days after it receives the Appeal file from the ICDS Plan, or at the end of up to a fourteen (14) calendar day extension, and a payment decision within sixty (60) calendar days. For expedited Appeals, the IRE will send the Beneficiary and the ICDS Plan a letter with its decision within seventy-two (72) hours after it receives the Appeal file from the ICDS Plan

or at the end of up to a fourteen (14) calendar day extension.

2.10.3.5.2.4. If the IRE decides in the Beneficiary's favor, whether in whole or in part, the ICDS Plan must authorize the service under dispute as expeditiously as the Beneficiary's health condition requires, but no later than seventy-two (72) hours from the date the ICDS Plan receives the notice of the decision.

2.10.3.5.2.5. If a subsequent Appeal is filed with the Bureau of State Hearings, ODM will issue Final Administrative Decisions for Standard Appeals within thirty (30) calendar days of the hearing request and in accord with OAC Rule 5101:6-7-01. Final Administrative Decisions for Expedited Appeals will be issued within three (3) Business Days after the filing of an Appeal with the State Fair Hearing Agency. Consistent with 42 C.F.R. Part 431 Subpart E, the ICDS Plan will participate in the pre-hearing process, including, but not limited to, scheduling coordination and submission of documentary evidence at least three (3) Business Days prior to the hearing, and shall participate in the hearing, including providing a witness to offer testimony supporting the decision of the ICDS Plan.

2.10.3.5.2.6. Continuation of Benefits Pending an Appeal: Pursuant to procedures and requirements documented in OAC rule 5160-58-08.4, the ICDS Plan must provide continuing benefits, when requested by the Beneficiary, for all previously authorized non-Part D benefits that are being terminated or modified pending the ICDS Plan's internal Appeal process. If the ICDS Plan does not decide fully in the Beneficiary's favor within the relevant timeframe, the ICDS Plan must continue providing benefits for any previously authorized non-Part D benefits that are being terminated or modified through the period of IRE review or State Hearing decision period. This means that benefits

previously authorized by the ICDS Plan and for which the authorization period has not expired and for which the Beneficiary timely requests continuation, will continue to be provided by Providers to Beneficiaries, and that the ICDS Plan must reinstate benefits or continue to pay Providers for authorized services pending an internal ICDS Plan Appeal, state hearing request, IRE review, or the Beneficiary withdraws the Appeal. Payments will not be recouped based on the outcome of the Appeal for services covered during pending Appeals.

2.10.3.6. Integrated Notice. Beneficiaries will be notified of all applicable Demonstration, Medicare and Medicaid Appeal rights through a single notice. The form and content of the notice must be based on elements of OMB approved CMS-1003 and prior approved by CMS and ODM. The ICDS Plan shall notify the Beneficiary of its decision at least fifteen (15) calendar days in advance of the date of its action, and simultaneous with the decision, when applicable.

2.10.3.6.1. The notice must explain:

2.10.3.6.1.1. The action the ICDS Plan has taken or intends to take;

2.10.3.6.1.2. The reasons for the action explained in simple and appropriate terms for the Beneficiary to understand; including the right of the Beneficiary to be provided upon request and free of charge, reasonable access to copies of all documents, records, and other information relevant to the Beneficiary's Adverse Benefit Determination. Such information includes medical necessity criteria, and any processes, strategies, or evidentiary standards used in setting coverage limits;

 - 2.10.3.6.1.8. The date the notice is being issued;
 - 2.10.3.6.1.9. Oral interpretation is available for any language;

 - 2.10.3.6.1.11. How to access the ICDS Plan's interpretation and translation services as well as alternative formats that can be provided by the ICDS Plan.
- 2.10.3.6.2. Written material must use easily understood language and format, be available in alternative formats, be written in an appropriate manner that takes into consideration those with special needs.

2.10.4. Hospital Discharge Appeals

- 2.10.4.1. When a Beneficiary is being discharged from the hospital, the ICDS Plan must comply with requirements in 42 C.F.R. §§ 422.620-422.622.

2.10.5. Additional Medicare QIO rights and procedures described at 42 C.F.R. §§ 422.624 and 422.626, including those that relate to individuals in a Comprehensive Outpatient Rehabilitation Facility (CORF), Skilled Nursing Facilities (SNF), or receiving Medicare Home Health benefits, will continue to be available pursuant to existing Medicare law, regulations and guidance.

2.10.6. In handling Grievances and Appeals, the ICDS Plan must give Beneficiaries all reasonable assistance in completing forms and other procedural steps not limited to providing interpreter services and toll free numbers with TTY and interpreter capability; and must inform Beneficiaries of the email address, postal address or toll-free telephone number where an Beneficiary Grievance may be filed.

2.13. **Financial Requirements**

2.13.1. The Ohio Department of Insurance (ODI) is the agency responsible for licensing managed care plans as Health Insuring

The ICDS plan must submit required reports and additional information, as requested by ODM, as related to their duties and obligations and where needed to assure operation in accordance with all state and federal regulations and requirements. - 2.13.2.1.10. *Penalty for noncompliance:* Noncompliance with submission of the above items will result in penalties, as outlined in the Compliance Assessment Policy document.

2.13.3. Financial Performance Measures and Standards

2.13.3.1. The ICDS Plan must meet specific expectations for financial performance. In the interest of administrative simplicity and non-duplication of areas of the ODI authority, ODM's emphasis is on the assurance of access to and quality of care. ODM will focus only on a limited number of indicators and related standards to monitor plan performance. The five indicators and standards for this Contract period are identified below. The source for each indicator will be the quarterly and annual ICDS Plan cost reports. The report period that will be used to determine compliance will be the annual ICDS Plan cost report.

2.13.3.2. The ODM Methods for ICDS Financial Performance Measures includes information on definitions for and calculations of the following financial performance indicators:

2.13.3.2.1. Indicator: Current Ratio

Standard: Current Ratio is not to fall below 1.00 as determined from the annual ICDS Plan Cost Report submitted to ODM.

2.13.3.2.2. Indicator: Medical Loss Ratio (MLR)

Standard: If an ICDS Plan has an MLR between eighty-five percent (85%) and ninety percent (90%) of the joint Medicare and Medicaid payment to the ICDS Plans, ODM and CMS may require a corrective action plan.

2.13.3.2.3. Indicator: Administrative Expense Ratio

Standard: Administrative Expense Ratio is not to exceed fifteen percent (15%), as determined from the annual ICDS Plan cost report submitted to ODM

2.13.3.2.4. Indicator: Overall Expense Ratio

Standard: Overall Expense Ratio is not to exceed one hundred percent (100%) as determined from the annual ICDS Plan cost report submitted to ODM.

2.13.3.2.5. Indicator: Defensive Interval

Standard: The defensive interval is not to fall below thirty (30) days as determined from the annual ICDS Plan cost report submitted to ODM.

2.13.3.3. Penalty for noncompliance:

- 2.13.3.3.1. Noncompliance with the above standards will result in penalties, as outlined in the Compliance Assessment Policy document. Failure to meet the standards above will result in ODM requiring the ICDS Plan to complete a corrective action plan (CAP) and specifying the date by which compliance must be demonstrated. Failure to meet the standard or otherwise comply with the CAP by the specified date will result in penalties as outlined in Section 5.3.14 of this Contract unless ODM determines that the deficiency does not potentially jeopardize access to or quality of care or affect the ICDS Plan's ability to meet administrative requirements (e.g., prompt pay requirements). Justifiable reasons for noncompliance may include one-time events (e.g., ICDS Plan investment in information system products).
- 2.13.3.3.2. If Financial Statements are not submitted to the ODI by the due date, the ICDS Plan continues to be obligated to submit the report to ODM by ODI's originally specified due date unless the ICDS Plan requests and is granted an extension by ODM.
- 2.13.3.3.3. Failure to submit complete quarterly and annual Financial Statements on a timely basis will be deemed a failure to meet the standards and will be subject to the noncompliance penalties listed above for the indicators above in Section 2.13.3.2 of this Contract including those outlined in the Compliance Assessment Policy document. The penalties will take effect at the first of the month following the month in which the determination was made that the ICDS Plan was noncompliant for failing to submit financial reports timely.
- 2.13.3.3.4. Long-term investments that can be liquidated without significant penalty within twenty-four (24) hours, which a plan would like to include in cash and short-term investments in the financial

performance measures listed in Section 2.13.3.2 of this Contract, must be disclosed in footnotes to the ICDS Plan quarterly and annual cost report. Descriptions and amounts should be disclosed. Please note that “significant penalty” for this purpose is any penalty greater than twenty percent (20%). Also, enter the amortized cost of the investment, the market value of the investment, and the amount of the penalty.

2.13.4. Reinsurance Requirements. Each ICDS Plan must carry reinsurance coverage as required by OAC 5160-58-01.1(A) and 5160-26-09 from a licensed commercial carrier to protect against inpatient-related medical expenses incurred by ICDS Beneficiaries.

- 2.13.4.1. A copy of the fully-executed reinsurance agreement to provide the specified coverage must be submitted to ODM prior to the effective date of the ICDS Plan Contract.
- 2.13.4.2. The reinsurance coverage must remain in force during the term of this Contract with ODM and CMS and must contain adequate provisions for Contract extensions.
- 2.13.4.3. To the extent that the risk for such expenses is transferred to a First Tier, Downstream, or Related Entity the ICDS Plan must provide proof of reinsurance coverage for that First Tier, Downstream, or Related Entity in accordance with the provisions of this paragraph.
- 2.13.4.4. Each ICDS Plan shall provide written notification to ODM, specifying the dates of admission, diagnosis and estimates of the total Claims incurred for all Beneficiaries for which reinsurance Claims have been submitted as a part of the ODM ICDS quarterly and annual cost reports.
- 2.13.4.5. The ICDS Plan must give ODM prior written notice of any proposed changes or modifications in the reinsurance agreements for ODM review and approval. Such notice shall be submitted to ODM thirty (30) days prior to the intended effective date of the proposed change and must include the complete and exact text of the proposed change.
- 2.13.4.6. The ICDS Plan must provide copies of new or modified reinsurance agreements to ODM within thirty (30) days of execution.
- 2.13.4.7. In the event of termination of the reinsurance agreement due to insolvency of the ICDS Plan or the reinsurance carrier, the ICDS Plan will be fully responsible for all pending or unpaid Claims. Any reinsurance agreements which

cover expenses to be paid for continued benefits in the event of insolvency must include Beneficiaries as a covered class.

- 2.13.4.8. Reinsurance requirements for partial-risk arrangements may differ from those specified in this paragraph.
- 2.13.4.9. The annual deductible or retention amount for such insurance must be specified in the reinsurance agreement and must not exceed \$100,000.00, unless ODM has provided the ICDS Plan with prior approval in writing for a higher deductible amount or alternate reinsurance arrangement. Except for transplant services, and as provided below, this reinsurance must cover, at a minimum, eighty percent (80%) of inpatient costs incurred by one Beneficiary in one year, in excess of \$100,000.00 unless ODM has provided the ICDS Plan with prior approval in writing for a higher deductible amount or alternate reinsurance arrangement.
- 2.13.4.10. For transplant services, the reinsurance must cover, at a minimum, fifty percent (50%) of inpatient transplant related costs incurred by one Beneficiary in one year, in excess of \$100,000.00 unless ODM has provided the ICDS Plan with prior approval in writing for a higher deductible amount or alternate reinsurance arrangement.
- 2.13.4.11. An ICDS Plan may request a higher deductible amount and/or that the reinsurance cover less than eighty percent (80%) of inpatient costs in excess of the deductible amount, only after the ICDS Plan has one year of Enrollment in Ohio. If the ICDS Plan does not have more than 75,000 Beneficiaries in Ohio, but does have more than 75,000 Beneficiaries between Ohio and other states, ODM may consider alternate reinsurance arrangements. However, depending on the corporate structures of the ICDS Plan, other forms of security may be required in addition to reinsurance. These other security tools may include parental guarantees, letters of credit, or performance bonds. In determining whether or not the request will be approved, the ODM may consider any or all of the following:
 - 2.13.4.11.1. Whether the ICDS Plan has sufficient reserves available to pay unexpected Claims;
 - 2.13.4.11.2. The ICDS Plan's history in complying with financial indicators in Section 2.13.3.2 of this Contract;
 - 2.13.4.11.3. The number of Beneficiaries covered by the ICDS Plan;

- 2.13.4.11.4. How long the ICDS Plan has been covering Medicaid/Medicare dual eligibles or other Beneficiaries on a full risk basis;
- 2.13.4.11.5. Risk based capital ratio greater than 2.5 or higher calculated from the last annual ODI financial statement;
- 2.13.4.11.6. Scatter diagram or bar graph from the last calendar year that shows the number of reinsurance Claims that exceeded the current reinsurance deductible and a graph/chart showing the Claims history for reinsurance above the previously approved deductible from the last calendar year.

2.13.5. The ICDS Plan's reinsurance coverage must have a deductible that does not exceed \$100,000.00 without approval from ODM, or reinsurance coverage for non-transplant services that covers less than eighty percent (80%) of inpatient costs in excess of the deductible incurred by one Beneficiary for one year without approval from ODM. Notification of Regulatory Action.

2.13.5.1. Any ICDS Plan notified by ODI of proposed or implemented regulatory action must report such notification and the nature of the action to ODM no later than one working day after receipt from ODI. ODM may request, and the ICDS Plan must provide, any additional information as necessary to assure continued satisfaction of program requirements. ICDS Plans may request that information related to such actions be considered proprietary in accordance with established ODM procedures. Failure to comply with this provision will result in penalties as outlined in the Compliance Assessment Policy document.

2.15.4.8.1. Notify CMS and ODM, prior to Encounter Data submission, that the data is not complete or accurate, and provide an action plan and timeline for resolution;

2.15.4.8.2. Submit for CMS and ODM approval, within a time frame established by CMS and ODM, which shall in no event exceed thirty (30) days from the day the ICDS Plan identifies or is notified that it is not in compliance with the Encounter Data requirements, a corrective action plan to implement improvements or enhancements to bring the accuracy and/or completeness to an acceptable level;

2.15.4.8.3. Implement the CMS and the ODM-approved corrective action plan within a time frame approved by CMS and ODM, which shall in no event exceed thirty (30) days from the date that the IDCS Plan submits the corrective action plan to CMS and ODM for approval; and

2.15.4.8.4. Participate in a validation study to be performed by CMS, ODM, and/or their designee, following the end of a twelve-month period after the implementation of the corrective action plan to assess whether the Encounter Data is complete and accurate. The IDCS Plan may be financially liable for such validation study.

2.15.4.9. Report as a voided Claim in the monthly Encounter Data submission any Claims that the ICDS Plan pays, and then later determines should not have paid.

Section 3. CMS and OHIO Responsibilities

3.1. Contract Management

- 3.1.1.1.1.13. Apply one or more of the sanctions provided in Section 5.3 of this Contract, including termination of the Contract in accordance with Section 5.5 of this Contract, if CMS and the ODM determine that the ICDS Plan is in violation of any of the terms of the Contract stated herein;
- 3.1.1.1.1.14. Conduct site visits as determined necessary by CMS and ODM to verify the accuracy of reported data; and
- 3.1.1.1.1.15. Coordinate the ICDS Plan's external quality reviews conducted by the external quality review organization.

3.1.2. Performance Evaluation

3.1.2.1. CMS and ODM will, at their discretion:

- 3.1.2.1.1. Evaluate, through inspection or other means, the ICDS Plan's compliance with the terms of this Contract, including but not limited to, the reporting requirements in Sections 2.14 and 2.15 of this Contract, and the quality, appropriateness, and timeliness of services performed by the ICDS Plan and its Provider Network. CMS and ODM will

provide the ICDS Plan with the written results of these evaluations;

3.1.2.1.2. Conduct periodic audits of the ICDS Plan, including, but not limited to an annual independent external review and an annual site visit;

3.1.2.1.3. Conduct annual Beneficiary surveys and provide the ICDS Plan with written results of such surveys; and

3.1.2.1.4. Meet with the ICDS Plan at least semi-annually to assess the ICDS Plan's performance.

3.2. **Enrollment and Disenrollment Systems**

3.2.1. CMS and ODM will maintain systems to provide:

3.2.1.1. Enrollment, disenrollment and Medicare opt-out and opt-in information to the ICDS Plan;

3.2.1.2. Continuous verification of eligibility status; and

3.2.1.3. Will maintain systems to identify individuals determined as at risk or potentially at risk for abuse or overuse of specified prescription drugs per 42 C.F.R. §§ 423.100 and 423.153(f).

3.2.2. Ohio State Enrollment Broker

3.2.2.1. ODM or its designee shall assign a staff person(s) who shall have responsibility to:

3.2.2.1.1. Develop generic materials to assist eligible Beneficiaries in choosing whether to enroll in the Demonstration, which materials shall present the ICDS Plan in an unbiased manner to Beneficiaries eligible to enroll in the ICDS Plans. ODM may collaborate with the ICDS Plan in developing ICDS Plans'-specific materials;

3.2.2.1.2. Present the ICDS Plan in an unbiased manner to Eligible Beneficiaries or those seeking to transfer from one ICDS Plan to another. Such presentation(s) shall ensure that Beneficiaries are informed prior to Enrollment of the following:

3.2.2.1.2.1. The rights and responsibilities of participation in the Demonstration;

- 3.2.2.1.2.2. The nature of the ICDS Plan's care delivery system, including, but not limited to the Provider Network; and the Comprehensive Assessment, and the Trans-Disciplinary Care Team;
- 3.2.2.1.2.3. Orientation and other Beneficiary services made available by the ICDS Plan;
- 3.2.2.1.3. Ensure that Beneficiaries are informed at the time of Enrollment of their right to terminate (opt-out of) their Enrollment from the Demonstration voluntarily at any time, unless otherwise provided by federal law or waiver;
- 3.2.2.1.4. Be knowledgeable about the ICDS Plan's policies, services, and procedures; and
- 3.2.2.1.5. At its discretion, develop and implement processes and standards to measure and improve the performance of the State Enrollment Broker staff. ODM shall monitor the performance of the State Enrollment Broker.

Section 4. Payment and Financial Provisions

4.1. General Financial Provisions

4.1.1. Capitation Payments

- 4.1.1.1. CMS and ODM will each contribute to the total capitation payment. CMS and ODM will each make monthly payments to the ICDS Plan for their portion of the capitated rate, in accordance with the rates of payment and payment provisions set forth herein and subject to all applicable federal and Ohio laws, regulations, rules, billing instructions, and bulletins, as amended. The ICDS Plan will receive three (3) monthly payments for each Beneficiary: one amount from CMS reflecting coverage of Medicare Parts A/B services (Medicare Parts A/B Component), one amount from CMS reflecting coverage of Medicare Part D services (Medicare Part D Component), and a third amount from ODM reflecting coverage of Medicaid services (Medicaid Component).
- 4.1.1.2. The Medicare Parts A/B Component will be risk adjusted using the Medicare Advantage CMS-HCC Model and the CMS-HCC ESRD Model, except as specified in Section 4.2.4 of this Contract. The Part D direct subsidy portion of the Medicare Part D payment will be risk adjusted using the Part D RxHCC Model. The Medicaid Component will utilize the rate cell methodology specified in Section 4.2.1 of this Contract.
- 4.1.1.3. CMS and ODM will provide the ICDS Plan with a rate report on an annual basis for the upcoming calendar year.
- 4.1.1.4. On a regular basis, CMS will provide ODM with the ICDS Plan-level payment information in the Medicare Plan Payment Report. The use of such information by ODM will be limited to financial monitoring, performing financial audits, and related activities, unless otherwise agreed to by CMS and the ICDS Plan. On a regular basis, ODM will also provide to CMS ICDS Plan-level payment information including the Medicaid Capitation Payments.

4.1.2. Demonstration Year Dates

- 4.1.2.1. Capitation Rate updates will take place on January 1st of each calendar year. However, savings percentages and quality withhold percentages (see Sections 4.2.3 and 4.3.7 of this Contract) will be applied based on Demonstration Years, as follows:

Demonstration Year	Calendar Dates
1	First effective Enrollment date – December 31, 2015
2	January 1, 2016 – December 31, 2016
3	January 1, 2017 – December 31, 2017
4	January 1, 2018 – December 31, 2018

Demonstration Year	Calendar Dates
5	January 1, 2019 – December 31, 2019
6	January 1, 2020 – December 31, 2020
7	January 1, 2021 – December 31, 2021
8	January 1, 2022 – December 31, 2022

4.2. Capitated Rate Structure

4.2.1. Underlying Rate Structure for the Medicaid Component

4.2.1.1. The State considered the potential risk variation of various subpopulations, financial incentives, and ease of operationalization when it determined the ICDS rate structure. Specifically, the ICDS Enrollment rules, the varying levels of need of the Beneficiaries, the existing Medicaid waivers, and the alignment of incentives to promote HCBS alternative to nursing facility placement were used to determine the rate structure described within this Section.

4.2.1.2. Regions: Since the choice of ICDS Plans will vary by region and the underlying service utilization varied by region, the ICDS Plan rates will vary by the regions listed in the rate report.

4.2.1.3. The Rate Cells for the Medicaid Component are stratified by Region, and level of care, as follows:

4.2.1.3.1. Community Well: The Community Well category represents those Beneficiaries who do not meet the nursing facility level of care (NFLOC) standard (including the transition rules) as described later in this Section. Within the Community Well category, Capitation Rates vary by the following age groups: 18–44, 45–64, and 65+.

4.2.1.3.2. Nursing Facility Level of Care

4.2.1.3.3. The NFLOC category represents those Beneficiaries that are eligible for, or who are enrolled in, one of the Ohio Medicaid home- and community-based (HCBS) waiver programs (Assisting Living, Home Care, and PASSPORT); or are a long-term NF resident with 100 or more consecutive days in a NF (gaps in NF care of fifteen (15) days or less count toward the consecutive day requirement).

- 4.2.1.3.3.1. The number of NF days is based on Medicare and Medicaid days and includes leave days, which are days when the NFs are paid for a Beneficiary who was discharged from the NF to the hospital but is expected to return to the NF. Once a Medicaid recipient achieves the 100th NF day (regardless of payor), the Beneficiary will be assigned to the NFLOC rate cell in the subsequent month and the plan would then be paid the higher rate associated with this population.
- 4.2.1.3.3.2. NF residents that have been in a NF for one hundred (100) or more days immediately preceding that Beneficiary's Enrollment in the ICDS Plan program will be classified into the NFLOC rate cell on the first day of Enrollment.
- 4.2.1.3.3.3. For the NFLOC rate cell, there is a single rating category for each contracting region.
- 4.2.1.3.3.4. The rates were developed using data from the following NFLOC population groups: Institutional, Community Waiver ages 18–44, Community Waiver ages 45–64, and Community Waiver age 65+.
- 4.2.1.3.4. For Demonstration Years 1 through 5, the Medicaid Component for each rate cell was developed from a baseline of projected Medicaid costs absent the Demonstration, with aggregate savings percentages applied as outlined in Section 4.2.3 of this Contract. Beginning in Demonstration Year 6, the Medicaid Component will be developed from MyCare data as appropriate, with adjustments consistent with the rate development standards outlined in 42 C.F.R. § 438.5(c). The aggregate savings percentages will not be applied to the Medicaid Component; however, the Medicaid Component will be evaluated against projected Medicaid costs absent the Demonstration, after application of aggregate savings percentages outlined in Section 4.2.3 of this Contract.

4.2.1.4. Transitional Rules

4.2.1.4.1. Beneficiaries who had met the criteria for inclusion in the NFLOC rate cell, but later do not, will be transitioned to the Community Well rate cell. The ICDS Plan will continue to receive the NFLOC capitation rate for three (3) full months following the change in categorization. Beginning with the fourth month, the plan will receive the Community Well capitation rate. ICDS Plans are required to submit files documenting Beneficiaries' eligibility for the NFLOC rate cell and discharge dates in accordance with specifications provided by ODM.

4.2.1.4.2. Beneficiaries initially in the Community Well category, but who later require care in a NF on a long term basis, will be assigned to the NFLOC rate cell in the month following the Beneficiary's 100th NF day.

4.2.1.4.3. Beneficiaries initially in the Community Well category who move to Community Waiver will be assigned to the NFLOC rate cell in the month following the Enrollment in the waiver.

4.2.1.5. Member Enrollment Mix Adjustment (MEMA). To address the potential variations in risk among the participating MyCare Ohio ICDS Plans, the State will be using a MEMA for the Medicaid portion of the capitation. A MEMA will enable the State to better match payment to risk by recognizing the relative risk/cost differences of major and objectively identifiable population groups included in each NFLOC rate cell.

4.2.1.5.1. The selected population groups that will be used for this adjustment are as follows: Institutional, Community Waiver 18–44, Community Waiver 45–64, and Community Waiver 65+. The MEMA will provide more revenue to ICDS Plans that have a greater proportion of high risk/cost Beneficiaries (Institutional and Community Waiver 18–44 Beneficiaries) and, conversely, provide less revenue to ICDS Plans that have a lower proportion of high risk/cost Beneficiaries

(Community Waiver 45–64, and Community Waiver 65+). Being budget neutral, the MEMA will not increase or decrease the State’s total amount of committed capitation revenue. This feature will be incorporated into the rates starting in the fourth month of MyCare Ohio enrollment for each region.

4.2.1.5.2. Updates to the MEMA will be made effective January and July of each year.

4.2.1.5.3. Relative cost factors are assigned to each of the population groups that comprise the NFLOC rate cell. These relative cost factors are developed by comparing the population group rate to the NFLOC rate. For example, if Institutional Beneficiaries cost \$4,000, and the NFLOC rate is \$2,000, the relative cost factor is 2.00 ($\$4,000/\$2,000$). This same process is repeated for every population group that comprises the NFLOC. The development of the relative cost factors is region-specific, where the rate for a population group in a region is compared to the NFLOC for that same region.

4.2.1.5.4. The State will analyze actual ICDS Plan Enrollment data at selected points in time and determine the Enrollment mix of each ICDS Plan. The State will multiply each ICDS Plan’s Enrollment mix by the respective relative cost factors to determine each ICDS Plan’s Beneficiary risk plan factor.

4.2.1.5.5. The State will initially adjust the ICDS Plans’ Capitation Rates by the respective Beneficiary risk plan factor applicable to each ICDS Plan. To ensure that the Beneficiary mix adjustments do not increase or decrease the total value of capitation revenue, the State will take a final step to ensure budget neutrality. In this final step, the State will compute the total value of capitation revenue before and after the Beneficiary mix adjustment. If the Beneficiary mix adjusted revenue is greater

than or less than the pre-mix adjusted revenue, each of the ICDS Plans' rates will be adjusted by a single budget-neutral factor.

4.2.1.5.6. MEMA factors will be determined on a regional basis, where each of the region's NFLOC rates will be adjusted using the Enrollment attraction patterns specific to that region.

4.2.1.5.7. The use of the MEMA factor is subject to change and may be a temporary feature used for the initial rating periods of the program only until another method for accounting for variations in health risk is introduced or until it is determined that the population in each ICDS Plan has stabilized to a point where further adjustments for risk/acuity differences are deemed unnecessary.

4.2.1.6. Demonstration Beneficiaries

4.2.1.6.1. Enrollment policies, including those for Passive Enrollment, are described in Section 2.3 of this Contract.

4.2.1.6.2. Beneficiaries will have the option to choose not to receive Medicare services through the ICDS Plan.

4.2.2. Underlying Rate Structure for Medicare Component of the Capitation Rate

4.2.2.1. Medicare will pay the ICDS Plan a monthly capitation amount for the Medicare Parts A/B services (the Medicare A/B Component), risk adjusted using the Medicare Advantage CMS-HCC Model and the CMS-HCC ESRD Model, except as specified in Section 4.2.4 of this Contract. Medicare will also pay the ICDS Plan a monthly capitation amount for Medicare Part D services, risk adjusted using the Part D RxHCC Model (the Medicare Part D Component).

4.2.2.2. Medicare A/B Component

4.2.2.2.1. The Medicare baseline spending for Parts A/B services are a blend of the Medicare Fee-For-Service (FFS) standardized county rates and the Medicare Advantage projected payment rates for each year, weighted by the proportion of the enrolled population in each program in the absence

of the Demonstration. The FFS county rates will generally reflect amounts published with the April Medicare Advantage Final Rate Announcement, adjusted to fully incorporate more current hospital wage index and physician geographic practice cost index information; in this Demonstration, this adjustment will be fully applied to the FFS county rates in 2014, but the adjustment will otherwise use the same methodologies and timelines used to make the analogous adjustments in Medicare Advantage. CMS may also further adjust the Medicare FFS standardized county rates as necessary to calculate accurate payment rates for the Demonstration. To the extent that the published FFS county rates do not conform with current law in effect for Medicare during an applicable payment month, and to the extent that such nonconformance would have a significant fiscal impact on the Demonstration, CMS will update the baseline (and therefore the corresponding payment rate) to calculate and apply an accurate payment rate for such month. Such update may take place retroactively, as needed.

4.2.2.2.2. Separate baselines will exist for Beneficiaries meeting the Medicare ESRD criteria. For Beneficiaries with ESRD in the dialysis or transplant status phases, the Medicare Parts A/B baseline will be the ESRD dialysis state rate. For Beneficiaries in the functioning graft status phase, the Medicare Parts A/B baseline will be the Medicare Advantage 3.5% bonus county rate (benchmark) for the applicable county as of January 2015 (for CY 2014 the baseline was the 3-star county rate).

4.2.2.2.3. Both baseline spending and payment rates under the Demonstration for Medicare Parts A/B services will be calculated as per member per month (PMPM) standardized amounts for each county participating in the Demonstration for each

year. Beneficiary risk scores will be applied to the standardized payment rates at the time of payment.

4.2.2.2.4. The Medicare A/B Component will be updated annually consistent with annual FFS estimates and Medicare Advantage rates released each year with the annual rate announcement.

4.2.2.2.5. If a Beneficiary elects to receive the Medicare hospice benefit, the Beneficiary may remain in the ICDS Plan, but will obtain the hospice service through the Medicare FFS benefit and the ICDS Plan would no longer receive the Medicare Parts A/B Component for that Beneficiary as described in this Section. Medicare hospice services and hospice drugs and all other Original Medicare services would be paid for under Medicare FFS. ICDS Plans and providers of hospice services would be required to coordinate these services with the rest of the Beneficiary's care. ICDS Plans would continue to receive the Medicare Part D Component for all non-hospice covered drugs. Election of hospice services does not change the Medicaid Component.

4.2.2.3. Medicare Part D

4.2.2.3.1. The Medicare Part D Component is comprised of the Part D direct subsidy set at the Part D national average monthly bid amount (NAMBA) for the calendar year, as well as the CMS-estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts; these payments will be reconciled after the end of each payment year in the same manner as for all Part D sponsors.

4.2.2.3.2. The monthly Medicare Part D Component for a Beneficiary can be calculated by multiplying the Part D NAMBA by the RxHCC risk score assigned to the Beneficiary, and then adding to this the estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts.

4.2.3. Aggregate Savings Percentages

4.2.3.1. Aggregate savings percentages will be applied equally, as follows, to the baseline spending amounts for the Medicare A/B Component and the Medicaid Component of the capitated rate herein. Beginning in Demonstration Year 6, the savings percentages listed below will not be applied directly to the Medicaid Component and instead will be applied to projected Medicaid costs absent the Demonstration against which the Medicaid Component is evaluated, as described at Section 4.2.1.3.4 of this Contract.

4.2.3.1.1. Demonstration Year 1: 1 %

4.2.3.1.2. Demonstration Year 2: 2 %

4.2.3.1.3. Demonstration Year 3: 4 %

4.2.3.1.4. Demonstration Year 4: 4%

4.2.3.1.5. Demonstration Year 5: 4%

4.2.3.1.6. Demonstration Year 6: 4%

4.2.3.1.7. Demonstration Year 7: 4%

4.2.3.1.8. Demonstration Year 8: 4%

4.2.3.2. Except as otherwise specified, rate updates will take place on January 1st of each calendar year.

4.2.3.3. Savings percentages will not be applied to the Part D Component. CMS will monitor Part D costs closely on an ongoing basis. Any material change in Part D costs relative to the baseline may be factored into future year savings percentages.

4.2.4. Risk Adjustment Methodology

4.2.4.1. Medicare Parts A/B: The Medicare Parts A/B Component will be risk adjusted based on the risk profile of each Beneficiary. Except as specified in Section 4.2.4 of this Contract, the existing Medicare Advantage CMS-HCC and CMS-HCC ESRD risk adjustment methodology will be used for the Demonstration.

4.2.4.2. Coding Intensity Adjustment Factor

4.2.4.2.1. In calendar year 2014, CMS will calculate and apply a coding intensity adjustment reflective of all Demonstration Beneficiaries except as indicated in Section 4.2.4 of this Contract. This will apply the

prevailing Medicare Advantage coding intensity adjustment proportional to the anticipated proportion of Demonstration Beneficiaries in 2014 with Medicare Advantage experience in 2013. Operationally CMS will still apply the coding intensity adjustment factor to the risk scores but will increase the Medicare A/B FFS baseline for non-ESRD Beneficiaries and Beneficiaries with an ESRD status of functioning graft, to offset this.

4.2.4.2.2. After calendar year 2015, CMS will apply the prevailing Medicare Advantage coding intensity adjustment to all Demonstration Beneficiaries.

4.2.4.2.3. The coding intensity adjustment factor will not be applied during the Demonstration to risk scores for Beneficiaries with an ESRD status of dialysis or transplant, consistent with Medicare Advantage policy.

4.2.4.3. Medicare Part D: The Medicare Part D national average bid amount will be risk adjusted in accordance with existing Part D RxHCC methodology. The estimated average monthly prospective payment amount for the low income cost-sharing subsidy and Federal reinsurance amounts will not be risk adjusted.

4.2.5. Medicaid: For the Medicaid Component of the capitated rate, ODM will rely on the methodology described in Section 4.2.1 of this Contract to account for differences in risk among the eligible population

4.2.6. Medical Loss Ratio (MLR)

4.2.6.1. Medical loss ratio Guarantee: The ICDS Plan has a target MLR of eighty-five percent (85%) for Demonstration Years 1 through 5, eighty-six percent (86%) for Demonstration Year 6, eighty-seven percent (87%) for Demonstration Year 7, and eighty-eight percent (88%) for Demonstration Year 8. As described below, any collected remittances would be distributed proportionally back to the Medicaid and Medicare programs on a percent of premium basis. The MLR calculation shall be determined as set forth below; however, ODM and CMS may adopt NAIC reporting standards and protocols after giving written notice to the ICDS Plan.

4.2.6.1.1. For all Demonstration Years, if an ICDS Plan has an MLR between eighty-five percent (85%) and ninety percent (90%) of the joint Medicare and

Medicaid payment to the ICDS Plan, ODM and CMS may require a corrective action plan.

4.2.6.1.2. For Demonstration Years 1 through 5, if an ICDS Plan has an MLR below eighty-five percent (85%) of the joint Medicare and Medicaid payment to the ICDS Plan, the ICDS Plan must remit the amount by which the eighty-five percent (85%) threshold exceeds the ICDS Plan's actual MLR multiplied by the total Capitation Rate revenue of the contract.

4.2.6.1.3. For Demonstration Years 6 through 8, in addition to remitting the amount by which the eighty-five percent (85%) threshold exceeds the ICDS Plan's MLR multiplied by the total Capitation Rate revenue, the ICDS Plan will also remit according to the following schedule:

4.2.6.1.3.1. In Demonstration Year 6, if the ICDS Plan's MLR is below eighty-six percent (86%) and above eighty-five percent (85%), the ICDS Plan would remit fifty percent (50%) of the difference between its MLR and eighty-five percent (85%) multiplied by the total Capitation Rate revenue;

4.2.6.1.3.2. In Demonstration Year 7, if the ICDS Plan's MLR is below eighty-seven percent (87%) and above eighty-five percent (85%), the ICDS Plan would also remit fifty percent (50%) of the difference between its MLR and eighty-five percent (85%) multiplied by the total Capitation Rate revenue; and

4.2.6.1.3.3. In Demonstration Year 8, if the ICDS Plan's MLR is below eighty-eight percent (88%) and above eighty-five percent (85%), the ICDS Plan would also remit fifty percent (50%) of the difference between its MLR and eighty-five percent (85%) multiplied by the total Capitation Rate revenue.

4.2.6.2. The ICDS Plan is required to calculate and report their MLR experience based on the 42 C.F.R. §§ 422.2400 et seq except that the numerator in the MLR calculation will include:

4.2.6.2.1. All Covered Services required in the Demonstration under Section 2.4 of this Contract;

4.2.6.2.2. Any services purchased in lieu of more costly Covered Services and consistent with the objectives of the Demonstration; and

4.2.6.2.3. Care Coordination Expense. That portion of the personnel costs for care coordinators whose primary duty is direct Beneficiary contact that is attributable to this Contract shall be included as a benefit expense. The portion of the personnel costs for ICDS Plan's medical director that is attributable to this Contract shall be included as a benefit expense.

4.2.6.3. The revenue used in the MLR calculation will consist of the Capitation Payments due from ODM and CMS for services provided during the coverage year, as defined in the annual MLR reporting instructions provided to ICDS Plans.

4.2.6.4. Data Submission. The ICDS Plan shall submit to ODM and CMS, in the form and manner prescribed by ODM and CMS, the necessary data to calculate and verify the MLR within eleven (11) months after the end of the coverage year using Claims incurred during the coverage year and paid through September 30 of the next calendar year.

4.2.6.5. Medical Loss Ratio Calculation. Within ninety (90) days following data submission, ODM and CMS shall calculate the MLR by dividing the benefit expense by the revenue. The MLR shall be expressed as a percentage rounded to the second decimal point. The ICDS Plan shall have sixty (60) days to review the MLR calculation. Each Party shall have the right to review all data and methodologies used to calculate the MLR.

4.2.6.6. Coverage Year. The first coverage year shall be May 2014 through December 2015. Following December 2015, the coverage year shall be the calendar year. The MLR calculation shall be prepared using all data available from the coverage year, including IBNP and nine (9) months of run-out for benefit expense (excluding sub-capitation paid during the run-out months).

4.3. **Payment Terms**

4.3.1. CMS and ODM will each make monthly, prospective capitation payments to the ICDS Plan. The ODM will categorize Beneficiaries according to the process outlined in Section 4.2 of this Contract. The Medicaid Component for each RC will be the product of the number of Beneficiaries in each category multiplied by the payment rate for that RC, with a MEMA adjustment. The Medicare Parts A/B Component will be the product of the Beneficiary's CMS-HCC risk score multiplied by the relevant standard county payment rate (or the ESRD dialysis state rate or the Medicare Advantage 3.5% bonus county rate by the HCC ESRD risk score, as applicable). The Medicare Part D Component will be the product of the Beneficiary's RxHCC risk score multiplied by the Part D NAMBA, with the addition of the estimated average monthly prospective payment amount for the low income cost-sharing subsidy and federal reinsurance amounts.

4.3.2. For the Medicaid component of the rate all regions will receive a MEMA adjustment after three (3) months of experience, based on an Enrollment snapshot received in the third month of Passive Enrollment. After the initial application, MEMA refreshes will take place semi-annually, starting January 2015 for all regions as reflected in the table in Section 4.1.2 of this Contract.

4.3.3. Beneficiary contribution to care amounts will be deducted from the Medicaid Component of the monthly capitation payment amount.

4.3.4. Timing of Capitation Payments

4.3.4.1. The timing of the capitation payment will be in accordance with ODM's capitation payment schedule. The payment cycle will be run prospectively and the payment will be released during the current month.

4.3.5. Beneficiary Cost Sharing

4.3.5.1. The ICDS Plan will not charge any premiums for services under this Contract. The ICDS Plan will not assess any cost sharing for services beyond the pharmacy cost sharing described herein.

4.3.5.2. For drugs and pharmacy products (including both those covered by Medicare Part D and Ohio Medicaid), the ICDS Plan will be permitted to charge co-payments to Beneficiaries currently eligible to make such payments. Co-pays charged by the ICDS Plan for Part D and Medicaid drugs must not exceed the applicable amounts for brand and generic drugs established yearly by CMS under the Part D Low Income Subsidy, although the ICDS Plan may elect to reduce this cost sharing for all Beneficiaries to encourage medication adherence.

4.3.6. Modifications to Capitation Rates

- 4.3.6.1. CMS and ODM will jointly notify the ICDS Plan in advance and in writing of any proposed changes to the Capitation Rates, and the ICDS Plan shall accept such changes as payment in full as described in Section 4.4 of this Contract.
- 4.3.6.2. Rates will be updated using a similar process for each calendar year. Subject to Section 4.2.1 of this Contract, changes to the Medicaid Component outside of the annual Capitation Rate development process will be made only if and when CMS and ODM jointly determine the change is necessary to calculate accurate payment rates for the Demonstration. Subject to Section 4.2.2 of this Contract, changes to the Medicare baselines outside of the annual Medicare Advantage and Part D rate announcement will be made only if and when CMS and ODM jointly determine the change is necessary to calculate accurate payment rates for the Demonstration. Such changes may be based on the following factors: shifts in Enrollment assumptions; major changes or discrepancies in federal law and/or Ohio policy compared to assumptions about Federal law and/or Ohio law or policy used in the development of baseline estimates; and changes in coding intensity.
- 4.3.6.3. For changes solely affecting the Medicare program baseline, CMS will update baselines by amounts identified by the independent Office of the Actuary necessary to best effectuate accurate payment rates for each month.
- 4.3.6.4. Subject to Section 4.2.2 of this Contract, if other statutory changes enacted after the annual baseline determination and rate development process are jointly determined by CMS and ODM to have a material change in baseline estimates for any given payment year, baseline estimates and corresponding standardized payment rates shall be updated outside of the annual rate development process.
- 4.3.6.5. Changes to the savings percentages will be made if and when CMS and the ODM jointly determine that changes in Part D spending have resulted in materially higher or lower savings that need to be recouped through higher or lower savings percentages applied to the Medicare A/B baselines.

4.3.7. Quality Withhold Policy for Medicaid and Medicare A/B Components of the Integrated, Risk-Adjusted Rate

- 4.3.7.1. Under the Demonstration, both CMS and ODM will withhold a percentage of their respective components of the Capitation Rate, with the exception of the Part D Component amounts. The withheld amounts will be repaid subject to the ICDS Plan's performance consistent with established quality thresholds.

4.3.7.2. CMS and ODM will evaluate the ICDS Plan’s performance according to the specified metrics required in order to earn back the quality withhold for a given year.

4.3.7.3. Whether or not the ICDS Plan has met the quality requirements in a given year will be made public.

4.3.7.4. Additional specifications regarding the quality withholds, including more detailed specifications, required thresholds and other information regarding the methodology are available in separate technical guidance.

4.3.8. Withhold Measures in Demonstration Year 1

4.3.8.1. Table A-2 below identifies the withhold measures for Demonstration Year 1. Together, these will be utilized for a one percent (1%) withhold.

4.3.8.2. Because Demonstration Year 1 crosses calendar and contract years, the ICDS Plan will be evaluated to determine whether it has met required withhold requirements at the end of both CY 2014 and CY 2015. The determination in CY 2014 will be based solely on those measures that can appropriately be calculated based on actual Enrollment volume during CY 2014. Consistent with such evaluations, the withheld amounts will be repaid separately for each calendar year.

4.3.9.2. Payments will be based on performance on the quality withhold measures listed in Table A-3. The ICDS Plan must report these measures according to the prevailing technical specifications for the applicable measurement year.

4.3.9.3. If the ICDS Plan is unable to report at least three of the quality withhold measures listed in Table A-3 for a given year due to low Enrollment or inability to meet other reporting criteria, alternative measures will be used in the quality withhold analysis. Additional information about this policy is available in separate technical guidance.

Additional information about this policy will be provided in separate technical guidance.

5.5. **Termination of Contract**

5.5.1. Termination without Prior Notice

5.5.1.1. In the event the ICDS Plan substantially fails to meet its obligations under this Contract or has otherwise violated the laws, regulations, or rules that govern the Medicare or ODM programs, CMS or ODM may take any or all action under this Contract, law, or equity, including but not limited to immediate termination of this Contract.

5.5.1.2. Without limiting the above, if CMS or ODM determine that participation of the ICDS Plan in the Medicare or ODM program or in the Demonstration, may threaten or endanger the health, safety, or welfare of Beneficiaries or compromise the integrity of the Medicare or ODM program, CMS or ODM, without prior Notice, may immediately terminate this Contract, suspend the ICDS Plan from participation, withhold any future payments to the ICDS Plan, or take any or all other actions under this Contract, law, or equity. Such action may precede Beneficiary Enrollment into any ICDS Plan, and shall be taken upon a finding by CMS or ODM that the ICDS Plan has not achieved and demonstrated a readiness in Ohio that will allow for the safe and efficient provision of Medicare-Medicaid services to Beneficiaries.

5.5.1.3. This Contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C. § 601-613). Failure of the parties to this Contract to reach agreement

on any request for equitable adjustment, claim, Appeal or action arising under or relating to this Contract shall be a dispute to be resolved in accordance with the clause at 48 C.F.R. § 52.233-1, Disputes, which is hereby incorporated into this Contract by reference. The ICDS Plan shall proceed diligently with performance of this Contract, pending final resolution of any dispute arising under the Contract.

5.5.1.4. Prior to submitting a claim pursuant to the Contract Disputes Act, the ICDS Plan may request review by CMS if it believes errors have been made in the claims analyses conducted eighteen (18) months into the Demonstration to determine the amount to be deferred for the last year of the Demonstration, and again at the end of the Demonstration as part of the reconciliation process. Request for review should be submitted to the Director of the Office of Research, Development, and Information (ORDI) and must be submitted in writing. Nothing in this provision is intended to waive the ICDS Plan's responsibility to comply with the time limitations in 48 C.F.R. § 52.233-1, Disputes (incorporated by reference) or the Contract Disputes Act.

5.5.1.5. United States law will apply to resolve any claim of breach of this Contract.

5.5.2. Termination with Prior Notice

5.5.2.1. CMS or ODM may terminate this Contract without cause upon no less than 180 days prior written Notice to the other party specifying the termination date, unless Applicable Law requires otherwise. In considering requests for termination under 42 C.F.R. § 422.508, CMS and ODM will consider, among other factors, financial performance under this Contract in granting consent for termination. Any written communications or oral scripts developed to implement the requirements of 42 C.F.R. § 422.506(a) must be submitted to and approved by CMS and ODM prior to their use.

5.5.2.2. Pursuant to 42 C.F.R. §§ 422.506(a)(4) and 422.508(c), CMS considers ICDS Plan termination of this Contract with prior notice as described in Section 5.5.2.1 and non-renewal of this Contract as described in Section 5.7 to be circumstances warranting special consideration, and will not prohibit the ICDS Plan from applying for new Medicare Advantage contracts or Service Area expansions for a period of two years due to termination.

5.5.3. Termination pursuant to Social Security Act § 1115A(b)(3)(B).

5.5.3.1. Termination for Cause

5.5.3.1.1. Any party may terminate this Contract upon 90 days' notice due to a material breach of a provision of this Contract unless CMS or ODM determines that a delay in termination would pose an imminent and serious risk to the health of the Beneficiaries enrolled with the ICDS Plan or the ICDS Plan experiences financial difficulties so severe that its ability to make necessary health services available is impaired to the point of posing an imminent and serious risk to the health of its Beneficiaries, whereby CMS or ODM may expedite the termination.

5.5.3.1.2. Pre-termination Procedures. Before terminating a contract under 42 C.F.R. §422.510 and §438.708, the ICDS Plan may request a pre-termination hearing or develop and implement a corrective action plan. CMS or ODM must:

In the event of termination, expiration, or non-renewal of this Contract, or if the ICDS Plan otherwise withdraws from the Medicare or ODM programs, the ICDS Plan shall continue to have the obligations imposed by this Contract or Applicable Law. These include, without limitation, the obligations to continue to provide Covered Services to each Beneficiary at the time of such termination or withdrawal until the Beneficiary has been disenrolled from the ICDS Plan; provided, however, that CMS and ODM will exercise best efforts to complete all disenrollment activities within six months from the date of termination or withdrawal.

5.5.4.2. In the event that this Contract is terminated, expires, or is not renewed for any reason:

5.5.4.2.1. CMS and ODM will be responsible for notifying all Beneficiaries covered under this Contract of the date of termination and the process by which those Beneficiaries will continue to receive care. If the ICDS Plan elects to terminate the Contract, or if the contract is mutually terminated by the ICDS Plan, CMS and ODM, the ICDS Plan will be responsible for notifying all Beneficiaries and the general public, in accordance with federal and Ohio requirements;

B. ALTERATION TO ORIGINAL ADDENDUM TERMS

ICDS Plan agrees that it has not altered in any way the terms of the ICDS Plan addendum presented for signature by CMS. ICDS Plan agrees that any alterations to the original text ICDS Plan may make to this addendum shall not be binding on the parties.

C. ADDITIONAL CONTRACT TERMS

ICDS Plan agrees to include in this addendum other terms and conditions in accordance with 42 C.F.R. § 423.505(j).

D. CMS AND ODM APPROVAL TO BEGIN MARKETING AND ENROLLMENT ACTIVITIES

ICDS Plan agrees that it must complete CMS operational requirements related to its Part D benefit prior to receiving CMS and ODM approval to begin ICDS Plan marketing activities relating to its Part D benefit. Such activities include, but are not limited to, establishing and successfully testing connectivity with CMS and ODM systems to process enrollment applications (or contracting with an entity qualified to perform such functions on ICDS Plan's behalf) and successfully demonstrating the capability to submit accurate and timely price comparison data. To establish and successfully test connectivity, ICDS Plan must, 1) establish and test physical connectivity to the CMS data center, 2) acquire user identifications and passwords, 3) receive, store, and maintain data necessary to send and receive transactions to and from CMS, and 4) check and receive transaction status information.

E. Pursuant to §13112 of the American Recovery and Reinvestment Act of 2009 (ARRA), ICDS Plan agrees that as it implements, acquires, or upgrades its health information technology systems, it shall utilize, where available, health information technology systems and products that meet standards and implementation specifications adopted under § 3004 of the Public Health Service Act, as amended by §13101 of the ARRA.

Appendix E. Data Use Attestation

The ICDS Plan shall restrict its use and disclosure of Medicare data obtained from CMS and ODM information systems (listed in Attachment A) to those purposes directly related to the administration of the Medicare/Medicaid managed care and/or outpatient prescription drug benefits for which it has contracted with the CMS and ODM to administer. The ICDS Plan shall only maintain data obtained from CMS and ODM information systems that are needed to administer the Medicare/Medicaid managed care and/or outpatient prescription drug benefits that it has contracted with CMS and ODM to administer. The ICDS Plan (or its First Tier, Downstream or other Related Entities) may not re-use or provide other entities access to the CMS information system, or data obtained from the system or ODM, to support any line of business other than the Medicare/Medicaid managed care and/or outpatient prescription drug benefit for which the ICDS Plan contracted with CMS and ODM.

The ICDS Plan further attests that it shall limit the use of information it obtains from its Medicare-Medicaid Beneficiaries to those purposes directly related to the administration of such plan. The ICDS Plan acknowledges two exceptions to this limitation. First, the ICDS Plan may provide its Medicare-Medicaid Beneficiaries information about non-health related services after obtaining consent from the Beneficiaries. Second, the ICDS Plan may provide information about health-related services without obtaining prior Beneficiary consent, as long as the ICDS Plan affords the Beneficiary an opportunity to elect not to receive such information.

CMS may terminate the ICDS Plan's access to the CMS data systems immediately upon determining that the ICDS Plan has used its access to a data system, data obtained from such systems, or data supplied by its Medicare-Medicaid Beneficiaries beyond the scope for which CMS and the ODM have authorized under this agreement. A termination of this data use agreement may result in CMS or ODM terminating the ICDS Plan's Medicare-Medicaid contract(s) on the basis that it is no longer qualified as an ICDS Plan. This agreement shall remain in effect as long as the ICDS Plan remains an ICDS Plan sponsor. This agreement excludes any public use files or other publicly available reports or files that CMS or ODM make available to the general public on their websites.
