

COVID-19 Vaccine Administration and Treatment Billing Guidelines

Amendment History

Version	Date	Modifications
1.0	2/9/2021	Initial creation
1.1	3/1/2021	Updated with new vaccine and treatment codes
1.2	3/15/2021	Updated new vaccine administration rate as of 3/15/21; added clarification for FQHCs
1.3	4/26/2021	Added podiatrists and dentists (billing on a professional claim); added new CDT codes for dentists; added NDC clarification for institutional claims
1.4	5/14/2021	Updated eligible age group for Pfizer vaccine; Updated rates for COVID-19 treatment codes M0243 and M0245
1.5	6/25/2021	Added home infusions, additional monoclonal antibody treatments, and vaccine add-on for home administration
1.6	7/20/2021	Fixed broken links, corrected revenue center code for dialysis centers
1.7	8/20/2021	Added CPT codes for administration of third dose; updated document title
1.8	10/1/2021	Added CPT codes for Pfizer booster shot and additional COVID treatments; at-home vaccine administration rate increase

COVID-19 Vaccine Administration

THE OHIO DEPARTMENT OF MEDICAID

The Ohio Department of Medicaid (ODM) has been working closely with the Ohio Department of Health (ODH) to provide uniform information regarding the COVID-19 vaccine and its distribution to Ohioans. These guidelines are being provided to assist eligible enrolled providers with billing for administering the vaccine to Medicaid covered individuals.

Providers of vaccine administration must enroll as an Ohio Medicaid provider to receive payment from our programs. The provider enrollment application can be completed online here: <https://portal.ohmits.com/Public/Providers/Enrollment/tabId/83/Default.aspx>. Questions about Ohio Medicaid provider enrollment, including checking on the status of an application, can be directed to 1-800-686-1516. After dialing this number, follow the prompts for Provider Enrollment.

Coverage for administration of the COVID-19 vaccine is similar to existing vaccine administration services billed to Medicaid. Since the federal government is covering the full cost of the COVID-19 vaccine at this time, providers will not receive Medicaid payment for the vaccine itself. While providers will not receive payment for the vaccine product, they may still be required to report it on claims. Please refer to provider-specific instructions contained in this document for claim requirements. Once federally purchased doses are exhausted and providers need to purchase the vaccine on their own, ODM will reimburse for the vaccine product in addition to the administration.

For the duration of the public health emergency (PHE), Medicaid fee-for-service (FFS) and the Medicaid managed care plans (MCPs) will cover vaccine administration services with no cost-sharing responsibility for covered individuals. For members enrolled in an MCP, vaccine administration services must be billed to the MCP. To the greatest extent possible, Medicaid's FFS and MCP programs are aligning billing requirements for vaccine administration. For questions concerning managed care claim submission, providers should contact the appropriate MCP using the contact information provided below.

For members enrolled in a MyCare Ohio Plan (MCOP), the Centers for Medicare and Medicaid Services (CMS) will process all claims for payment for vaccine administration services under Part B original Medicare. (For more information, please visit <https://www.cms.gov/medicare/covid-19/medicare-billing-covid-19-vaccine-shot-administration>)

Information concerning ODM's response to COVID-19 will continue to be updated on our website: <https://medicaid.ohio.gov/COVID/ODM-Emergency-Telehealth>.

COVID-19 Vaccine Services

Manufacturer	Effective Date	Procedure Code	Description	Payment rate*
Pfizer For individuals 12 and older (as of 5/10/2021) For individuals 16 and older (through 5/9/2021)	12/11/2020	91300	Vaccine	\$0.01
	12/11/2020	0001A	Administration of first dose	\$16.94 (administered before 3/15/2021)
				\$37.98 (administered 3/15/2021 or after)**
	12/11/2020	0002A	Administration of second dose	\$28.39 (administered before 3/15/2021)
	8/12/2021	0003A	Administration of third dose	\$37.98

\$37.98				
Janssen (Johnson & Johnson) For individuals 18 and older	2/27/2021	91303	Vaccine	\$0.01
	2/27/2021	0031A	Administration of vaccine	\$28.39 (administered before 3/15/2021)
				\$37.98 (administered 3/15/2021 or after)**

M0201 + SY modifier (see further information below)	COVID-19 vaccine home admin, per dose	COVID-19 vaccine administration inside a patient's home; reported only once per individual home per date of service when only COVID-19 vaccine administration is performed at the patient's home.	6/8/2021	\$62.02 (administered 10/1/2021 or after)***
---	---------------------------------------	---	----------	--

*Payment rate differs for ASC, FQHC, and RHC providers

**New rate effective in MITS as of 3/19/2021

***New rate effective in MITS as of 10/12/2021

Additional Payment for Administering the COVID-19 Vaccine in the Patient's Home

Effective June 8, 2021, an additional payment amount for administering the COVID-19 vaccine in the home for certain patients is \$33.36 per dose.

This additional payment applies to the following situations:

- » The patient has difficulty leaving the home to get the vaccine
- » The patient is hard-to-reach because they have a disability or face clinical, socioeconomic, or geographical barriers to getting a COVID-19 vaccine in settings other than their home.
- » The patient faces challenges that significantly reduce their ability to get vaccinated outside the home, such as challenges with transportation, communication, or caregiving.

This add-on payment can only be rendered by an appropriate practitioner in the following locations, to be reported on claims using the appropriate place of service code:

- POS 04 – Homeless shelter
- POS 12 - Home
- POS 13 – Assisted Living Facility
- POS 14 – Group Home
- POS 16 – Temporary Lodging
- POS 33 – Custodial Care Facility
- » This additional payment amount for administering the COVID-19 vaccine is only payable when the sole purpose for the visit is to administer the COVID-19 vaccine. The additional payment is only made once per date of service per residence. The additional payment is payable in conjunction with each dose of a two-dose vaccine.

Managed Care

For the duration of the PHE, Medicaid FFS and managed care will cover vaccine administration at the rates set by Medicare with no cost-sharing. Medicaid managed care plans will cover vaccine administration for both in- and out-of-network providers as long as the provider is enrolled with ODM and bills in accordance with these guidelines.

As stated above, Medicare Part B is covering vaccine administration for MyCare members. More information is available on CMS' website: <https://www.cms.gov/medicare/covid-19/medicare-billing-covid-19-vaccine-shot-administration>.

In most instances, managed care billing guidelines align with those for FFS outlined in subsequent sections. Please contact the MCPs directly for claim submission questions.

Professional Claims

Professional FFS claims should be submitted with the vaccine product code along with the administration code that corresponds with the vaccine provided. Since MITS cannot accept a detail on a claim with \$0.00 line charges, the line detail with the vaccine code should be submitted with \$.01 charge or higher; it will be reimbursed at \$.01. The rate paid and procedure codes for the vaccine administration is provided in the COVID-19 Vaccine Services table above.

More information about the COVID-19 CPT vaccine and immunization codes can be found here: <https://www.ama-assn.org/press-center/press-releases/ama-announces-vaccine-specific-cpt-codes-coronavirus-immunizations>

*These instructions do not apply to Medicare crossover claims. Provider-submitted crossover claims should be submitted with the information provided by Medicare on the explanation of medical benefits (EOMB).

Hospital Providers and Institutional Claims

Outpatient and Psychiatric Hospitals – Vaccine Administration

Vaccine CPT codes 91300, 91301, and 91303:

When billing the COVID-19 vaccine codes 91300, 91301, and 91303, **outpatient hospitals and psychiatric hospitals** must use Revenue Center Code (RCC) 25X or 636 with a charge of \$0.01 or higher. A National Drug Code (NDC) should be reported when available, however, it is currently exempt from the NDC validation process when reported with RCC 25X or 636. Although the vaccine is obtained free of charge at this time, providers cannot bill with a zero charge because MITS will deny a detail with \$0.00 charges on an outpatient claim.

Psychiatric hospitals must append modifier HE to the vaccine code. Depending on other services billed on the same date of service, payment for CPT code 91300, 91301, or 91303 will either be packaged for \$0.00 or paid \$0.01 from the Provider Administered Pharmaceutical Fee Schedule.

Vaccine administration CPT codes 0001A, 0002A, 0003A, 0004A, 0011A, 0012A, 0013A, and 0031A:

ODM will reimburse all outpatient hospitals and psychiatric hospitals for administering the COVID-19 vaccine at the listed price in the table on page 3 of this document. The vaccine administration codes should not be packaged or bundled; ODM intends to reimburse for the vaccine administration regardless if other services (E&M, Medical Visit, significant procedure, etc.) are performed on the same date of service.

To bypass the grouper packaging logic, ODM is requiring the vaccination administration codes to be billed using RCC 771 with modifier HE.

Ambulatory Surgery Centers – Vaccine Administration

Depending on other services billed on the same date of service, payment for CPT codes 91300, 91301, and 91303 billed with RCC 636 will either be packaged for \$0.00 or paid \$0.01 from the Provider Administered Pharmaceutical Fee Schedule when EAPG determines separate payment is allowed. An NDC should be reported when available, however, it is currently exempt from the NDC validation process when reported with RCC 636.

Vaccination Administration CPT codes 0001A, 0002A, 0003A, 0004A, 0011A, 0012A, 0013A, and 0031A are reimbursed at \$22.67 (through 3/14/2021) or \$37.98 (as of 3/15/2021) per administration in ASCs. These are the only vaccination administration codes allowed under ASCs.

ODM cannot bypass EAPG for ASCs therefore, the Department will be paying ASCs the average rate of \$22.67 through 3/14/2021 by paying EAPG 459 – Vaccine Administration – at 60.09% of the calculated EAPG rate. Effective 3/15/2021, the vaccine administration will be paid at \$37.98 per administration by paying EAPG 459 – Vaccine Administration - at 100.69% of the calculated EAPG rate. (We are utilizing the same system methodology in which EAPG 485 is currently paid to ASCs at 223% of the calculated EAPG rate).

COVID-19 Treatment Services

The following COVID-19 treatment services are available to bill on professional and institutional claim forms. Specific instructions for outpatient hospitals and ambulatory surgery centers billing on an institutional claim can be found below.

COVID-19 Treatment Services – Professional and Institutional Claims				
Procedure Code	Short Descriptor	Long Description	Effective Date	Payment rate
M0243	Casirivi and imdevi infusion	Intravenous infusion includes infusion and post administration monitoring	11/21/2020	\$309.60 (for dates of service through 5/5/2021) \$414.93 (for dates of service 5/6/2021 and after)
Q0243	Casirivimab and imdevimab	Injection, casirivimab and imdevimab, 2400 mg	11/9/2020	\$0.01
M0239	Bamlanivimab-xxxx infusion	Intravenous infusion includes infusion and post administration monitoring	11/9/2020-4/16/2021*	\$309.60
Q0239	Bamlanivimab-xxxx	Injection. Bamlanivimab, 700 mg	11/9/2020-4/16/2021*	\$0.01
M0245	bamlan and etesev infusion	intravenous infusion, bamlanivimab and etesevimab, includes infusion and post administration monitoring	2/9/2021	\$309.60 (for dates of service through 5/5/2021) \$414.93 (for dates of service 5/6/2021 and after)

Q0245	bamlanivimab and etesevima	Injection, bamlanivimab and etesevimab, 2100 mg	2/9/2021	\$0.01
M0247	Soltrovimab infusion	Intravenous infusion, sotrovimab, includes infusion and post administration monitoring	5/26/2021 (this procedure code will be available to bill on 6/28/2021)	\$414.93
Q0247	Sotrovimab	Injection, sotrovimab, 500 mg	5/26/2021 (this procedure code will be available to bill on 6/28/2021)	By report
M0240	<u>Casiri and imdev repeat</u>	Intravenous infusion or subcutaneous injection, casirivimab and imdevimab, includes infusion or injection and post administration monitoring, subsequent repeat doses	10/1/2021	\$414.93
M0241	<u>Casiri and imdev repeat hm</u>	Intravenous infusion or subcutaneous injection, casirivimab and imdevimab, includes infusion or injection, and post administration monitoring in the home or residence. This includes a beneficiary's home that has been made provider-based to	10/1/2021	\$692.14

		the hospital during the covid-19 public health emergency, subsequent repeat doses		
Q0240	Casirivi and imdevi 600mg	Injection, casirivimab and imdevimab, 600 mg	10/1/2021	\$0.01

*The Food and Drug Administration (FDA) revoked the emergency use authorization therefore this service is no longer covered for dates of service on or after 4/17/2021.

Instructions for outpatient hospitals and ambulatory surgery centers

Outpatient hospitals should bill COVID-19 treatment codes using Revenue Center Code (RCC) 25X or 636 with a minimum charge of \$0.01. An NDC should be reported when available, however, it is currently exempt when reported with these RCCs. When determined separately payable by the grouper, these codes will reimburse according to the provider administered pharmaceutical fee schedule. These services are covered as a medical benefit only and are not billable by psychiatric hospitals under OPHBH

Home Infusions

The following home infusion services are covered when provided by a physician, physician assistant (PA), advanced practice registered nurse (APRN), or pharmacist. These services are only reimbursable on a professional claim when rendered by these practitioners.

Home Infusion Services – Professional Claims				
Procedure Code	Short Descriptor	Long Description	Effective Date	Payment rate
M0244	Casirivi and imdevi home infusion	Intravenous infusion, casirivimab and imdebimad included infusion and post administration monitoring in the home or residence	5/6/2021	\$692.15

M0246	Bamlan and etesev home infusion	Intravenous infusion, bamlanivimab and estesevimab. Includes infusion and post administration monitoring in the home or residence	5/6/2021	\$692.15
M0248	sotrovimab inf, home administration	Intravenous infusion sotrovimab. Includes infusion and post administration monitoring in the home or residence	5/6/2021 (this procedure code will be available to bill on 6/28/2021)	\$692.15

Pharmacy Claims

Pharmacy claims should follow the National Council for Prescription Drug Plans (NCPDP) COVID-19 Vaccination Emergency Preparedness Guidance found here:

<https://www.ncdp.org/NCPDP/media/pdf/NCPDP-Emergency-Preparedness-Guidance-COVID-19-Vaccines.pdf>

- Medicaid FFS, through its Pharmacy Benefit Manager (PBM) Change Healthcare, can accept pharmacy claims at this time. Further instructions can be found on the ODM website here: https://pharmacy.medicaid.ohio.gov/sites/default/files/20210427_Covid_Vaccine_Admin_Fee_Update_Pharmacy_Notice.pdf#overlay-context=pharmacy-billing-information
- Medicaid managed care plan PBMs can accept pharmacy claims at this time.
- The following fields are required on the NCPDP claim submission:

Field #	NCPDP Field Name	Payer Usage	Comment
42Ø-DK	Submission Clarification Code (SCC)	RW	Required for two-dose COVID-19 vaccines. Not required for single-dose vaccines.
438-E3	Incentive Amount Submitted	RW	Required when claim is for a COVID-19 vaccine. Amount must be a non-zero value.
44Ø-E5	Professional Service Code	RW	'MA' – Medication Administration code

		required for all claims submitted for a COVID-19 vaccine.
--	--	---

The Submission Clarification Code (SCC) will be used to differentiate the Initial Dose and Final Dose:

	Initial Dose	Final Dose
Submission Clarification Code (SCC)	2 'Other Override'	6 'Starter Dose'
Incentive Amount Submitted	\$37.98	\$37.98
Professional Service Code	'MA'	'MA'

Submission Clarification Code value of **42** (Prescriber ID Submitted is valid and prescribing requirements have been validated) may be used to override prescriber NPI validation rules when the pharmacist is acting as the prescriber according to federal/state guidance. In addition to Submission Clarification Code of 42, the values of 2 or 6 would also be submitted to identify the dose number.

Dental Claims

Dentists are authorized to administer COVID-19 vaccines as of March 16, 2021. The following CDT codes for vaccine administration should be used when billing these services on a dental claim.

CDT COVID-19 Vaccine Services			
Procedure Code	Description	Rate	Effective Date
D1701	Pfizer BioNTech Covid-19 Vaccine Administration - first dose ADM SARSCOV2 30MCG/0.3ML	\$37.98	3/16/2021
D1702	Pfizer BioNTech Covid-19 Vaccine Administration - second dose ADM SARSCOV2 30MCG/0.3ML	\$37.98	3/16/2021
D1703	Moderna Covid-19 Vaccine Administration - first dose ADM SARSCOV2 100MCG/0.5ML	\$37.98	3/16/2021
D1704	Moderna Covid-19 Vaccine Administration - second dose ADM SARSCOV2 100MCG/0.5ML	\$37.98	3/16/2021
D1707	Janssen Covid-19 Vaccine Administration - single dose ADM SARSCOV2 VAC AD26 .5ML	\$37.98	3/16/2021

Instructions for Specific Program Areas

Federally Qualified Health Center (FQHC) and Rural Health Clinic (RHC) billing:

ODM payment for a COVID-19 vaccine furnished by an FQHC or RHC is made in accordance with Chapter 5160-28 of the Administrative Code. Except when furnished as part of a mass immunization, a vaccine administered by an FQHC or RHC practitioner is paid under the Prospective Payment System (PPS).

Payment for a vaccine done as part of a mass immunization is made separately outside of the PPS. When a vaccine is done as part of a mass immunization, please follow the policy guidance posted in Medicaid advisory letter (MAL) 655: [Payment for Vaccines Furnished by a Federally Qualified Health Center \(FQHC\) or Rural Health Clinic \(RHC\)](#).

On a claim, an FQHC or RHC must report the appropriate COVID-19 vaccine administration code plus the vaccine itself. Except when furnished by an RN, the practitioner administering the vaccine should be reported as the rendering practitioner on the claim. When furnished by an RN, the supervising/overseeing medical practitioner should be reported as the rendering practitioner on the claim.

For reporting purposes, a COVID-19 vaccine administered at a related off-site location is attributed to the particular FQHC or RHC site whose personnel provided the service.

Added 3/15/2021: In accordance with paragraph (A)(1)(a) of rule 5160-28-03.1 and section (P) of rule 5160-28-01, Ohio Medicaid will pay FQHCs under the PPS when licensed practical nurses (LPNs) and medical assistants (MAs) administer vaccines if all of the following apply:

- It is within their scope of practice
- The administration of the vaccine is being done in accordance with ORC including adhering to supervisory requirements
- An eligible practitioner of FQHC services is supervising the LPN or MA and is reported on the claim; and
- The vaccine is not part of a mass immunization.

Mass immunization by FQHCs and RHCs

Payment for a vaccine done as part of a mass immunization is made separately outside of the PPS. ODM generally follows Medicare's definition of mass immunization, which is any entity that gives vaccines to multiple individuals at the same location (e.g., at vaccine clinics, shopping malls, grocery stores, senior

citizen homes, and health fairs) on the same date in a short time interval. Mass immunizations furnished by an FQHC or RHC may be done on-site (e.g., in an FQHC's parking lot) or off-site (e.g., at a school).

Mass immunization services should not be reported on claims submitted to ODM for FQHC or RHC visits paid under the PPS, nor should they be reported on claims for wraparound payments.

When a Medicaid recipient is enrolled in an MCP, and the vaccine is given as part of a mass immunization, the MCO is the only payer of a vaccine administered during a mass immunization.

When a Medicaid recipient is not enrolled in an MCP, and the vaccine is done as part of a mass immunization, a claim may be submitted separately as a covered non-FQHC or covered non-RHC service under an FQHC or RHC's "clinic" provider number (provider type 50).

Dialysis Centers

As set forth in Ohio Administrative Code rule 5160-13-02, covered dialysis services furnished at a dialysis center are made as an all-inclusive composite payment amount per visit. Separate payment may be made for covered professional services of a medical practitioner and for covered laboratory services and pharmaceuticals that are not directly related to dialysis treatment. The administration of a COVID-19 vaccine qualifies for Medicaid payment separately and outside of the all-inclusive composite payment amount. The appropriate COVID-19 vaccine administration and COVID-19 vaccine codes must be billed with Revenue Center Code (RCC) 771.

Home Health Services

If a vaccine is administered during a home health visit by the home health nurse, the vaccine administration is considered a task performed during the home health visit therefore, the home health agency is not able to bill separately for vaccine administration.

Coordination of Benefits

Coordination of benefits requirements found in Ohio Administrative Code rule 5160-1-08 apply to COVID-19 vaccination services. Since Medicare covers the full cost of the COVID-19 vaccine and administration without cost sharing, ODM does not expect to see many crossover claims. Any provider-submitted crossover claims must include the information returned by the payer on the explanation of Medicare benefits (EOMB).

Concerning uninsured individuals, the CMS, in its December bulleting titled, "Coverage and Reimbursement of COVID-19 Vaccines, Vaccine Administration, and Cost-Sharing under Medicaid, the Children's Health Insurance Program, and Basic Health Program," advise that providers of the vaccine can request reimbursement for the administration of the COVID-19 vaccine through the Health

Resources and Services Administration (HRSA). Providers can find more information about these funds on HRSA's website: <https://www.hrsa.gov/CovidUninsuredClaim>.
